Platinum Asset Management

Platinum is an Australian-based investment manager specialising in international equities.

Platinum is the Responsible Entity and investment manager of the Funds.

Platinum manages approximately A\$24 billion, with around 7% of funds from Investors in New Zealand, Europe, America, Asia and the rest from Australian Investors*.

Platinum is a fully owned subsidiary of Platinum Asset Management Limited ABN 13 050 064 287, a company listed on the Australian Securities Exchange. Directors, officers and employees of the Platinum group of companies have relevant interests in approximately 50% of Platinum Asset Management Limited's issued shares.

* Figures are as at 31 January 2021. Funds under management will change from time to time. The latest figure can be obtained from our website or Investor Services.

Why invest with Platinum?

Platinum is one of Australia's leading investment managers in international equities.

Platinum has an independent style of investment management driven by a thematic stock picking approach. The composition of a Fund's assets is determined largely by the availability of companies regarded as undervalued by Platinum rather than by macro economic modelling (referred to as top down asset allocation) or by reference to global share index weightings (referred to as benchmarking).

Platinum's investment strategy is applied with the aim of achieving absolute returns for Investors. This is our central endeavour. It is complemented by monthly and quarterly communications to keep Investors abreast of our perspective and portfolio positioning.

The Funds can be used as stand-alone investment options for international exposure or may be used to complement the investment styles of other managers.

Platinum's Investment Strategy

How Platinum invests

Investment philosophy

Platinum is an active manager focused on delivering long-term absolute returns (i.e. returns in absolute terms, rather than relative to any benchmark).

Platinum's investment philosophy is centred on the belief that there are times when events of a transitory nature may have a disproportionate effect on a company's share price, be they positive or negative, causing it to deviate from its inherent trend line. Such events, in Platinum's view, present potential investment opportunities, if one is able to differentiate between the companies that have a sound business case but are facing temporary set-backs from those which have lesser potential or face fundamental problems.

Platinum's style of investment management is focused on seeking out the out-of-favour and overlooked parts of the market. Its core expertise is in identifying companies that have sound businesses and promising growth prospects but are temporarily out-of-favour with the market.

Investment approach and process

To identify companies whose businesses and growth prospects are temporarily inappropriately valued by the market, Platinum builds each portfolio through a process of individual stock selection (the "bottom-up approach") rather than from any pre-determined asset allocation by macro-economic modelling (the so-called "top-down" model) or by reference to any index weightings (the so-called "benchmarking" model).

Platinum applies both qualitative and quantitative analyses when selecting stocks. Considerations in connection with each company typically include, but are not limited to:

- whether the company's business is competitive and sustainable;
- the quality of the company's management;
- the company's ownership structure;
- whether the company is financially sound;
- the company's price to earnings ratio, price to book ratio, and free cash flow; and
- whether the company is likely to generate free cash flow that will grow.

Such analyses are underpinned by observations and studies of broader socio-political and macroeconomic themes and trends.

Furthermore, companies need to behave in such a way so as to be able to sustain their future operations. This rationale is often referred to as Environmental, Social and Governance (ESG) considerations. In reality these elements are a component, amongst others, that affords a company's 'social license' to continue to operate. Not acting within the expectations of the broader community will hurt the ongoing viability of a company and its prospects, thereby diminishing our expectations of a company's future return to shareholders.

Platinum's investment process generally involves the following key elements:

Idea generation

Generation of themes and ideas in Platinum's investment process is eclectic in nature. Input from observations of the changing social and political landscape and the application of numeric skills are both regarded as an important part of the investment process.

Platinum places great store on the cross-pollination of ideas and the view that increasingly more weight should be applied to the global context of a company's operations than purely regional considerations.

Platinum's investment team is structured into sectoral/regional teams each with a team leader who in most cases is also a Portfolio Manager for one or more of the Funds managed by Platinum, which are further supported by a team of quantitative analysts and dealers. The location, organisational structure, range of team meetings and internal infrastructure is all designed to foster a collaborative open approach and to facilitate the free flow of information between analysts with different geographic and industry responsibilities.

Screens

Platinum uses screening which allows for the selection of companies based on specific criteria (or "screens") across a databank of companies. This process allows Platinum to undertake cross-comparative studies of companies in its investable universe, thereby drawing up short-lists for more intense study. In setting these screens, Platinum may build on a hypothesis regarding social, political, or economic change. For example, a screen may seek to identify industry groups that are currently out-of-favour with investors.

Intensive research

Once a company has been identified as a potential investment opportunity, it is then investigated by investment analysts in greater detail and depth, utilising a variety of resources, including material from the company itself and its competitors, consultation with experts, reports from stockbroking analysts and industry material. Analysts are also often required to visit the companies being studied as well as their competitors and suppliers.

The analyst primarily responsible for the research and investigation of a company prepares a detailed report which is then subjected to the scrutiny of team members who meet to vigorously discuss and debate the merits of the case. The purpose of these meetings is to expose areas of concern and potential flaws in each investment proposal rather than to achieve a consensus. The final decision lies not with a committee, but solely between the analyst who is the promoter of the idea and the relevant Portfolio Manager.

The research report and/or investment review will include such matters as, for example, certain achievements expected from the company being proposed. These may vary considerably depending on the nature of the company involved, but, amongst other things, tend to include sales and earnings targets. Failure by the company to meet these targets would raise concern and, notwithstanding any price action, could result in the shares being sold. It is Platinum's experience that when targets are met or exceeded, the share price tends to overshoot expectations. Flexibility in selling may allow for the market's tendency to overreact.

Portfolio construction

As a consequence of the investment strategy, each Fund's Portfolio will be built-up from a series of individual stock selections rather than from a pre-determined asset allocation. Investment weightings will vary considerably from benchmarks such as indices issued by MSCI Limited.

In a way, Portfolio building can be seen as a layering process. At any time, there will be newly introduced ideas, others that have made an initial contribution, and others that are starting to tire. Care is taken to understand the inter-relationship of stocks within the Portfolio.

The number of securities held by each Fund will tend to be relatively small. Generally, there are between 30 to 140 securities depending on whether the Fund is global, regional or industry focused.

When undervalued securities cannot be found, Platinum will leave funds in cash. Therefore, after periods when the markets have performed strongly a Fund may hold significant cash positions.

Likewise, when Platinum's research reveals companies whose prospects are seen as overvalued, Platinum may short sell positions in securities (and indices) – refer to 'Derivatives' and 'Short selling' on pages 13 and 14. Note, however, that short selling is not undertaken for the Platinum Global Fund (Long Only) – (formerly Platinum Unhedged Fund) – refer to page 20.

Disclosure Principles

Disclosure Principle 1: Investment strategy

Investment strategy and typical assets	<p>Platinum seeks investments in companies whose businesses and growth prospects are being inappropriately valued by the market. For more information on Platinum's 'Investment Strategy' – refer to page 4.</p> <p>Each Fund's Constitution permits a wide range of investments. However, Platinum typically invests in listed equity securities of companies, cash and cash equivalents, Derivatives (including OTC Derivatives) and foreign exchange transactions. Please refer to page 34 for more information.</p> <p>The Platinum International Fund and the Platinum Asia Fund will not invest in unlisted equity securities, except in the case of initial public offers of securities, or where an unlisted securities holding arises inadvertently, for example due to a corporate event. Any investments in such unlisted securities will be kept to a <i>de minimis</i> amount at all times.</p> <p>The use of leverage, Derivatives and short selling by each Fund is outlined in more detail on pages 12 to 14.</p>
Investment returns	<p>In Platinum's opinion, investing in a broad range of companies whose businesses and growth prospects are being inappropriately valued by the market provides a foundation for long-term investment returns. For more information on Platinum's 'Investment Strategy' – refer to page 4.</p>
Investment return assumptions	<p>Investing in the shares of a company is a claim on the underlying profits of a company's business. In simple terms, investment returns are determined by amongst other things: initial valuation, subsequent performance of the business, and valuation of the company at the end of the period. The assessment of a company's future prospects is a very significant and challenging part of the day-to-day process of investing. Not only do general economic conditions play a part, but issues such as the behaviour of competitors, technological change, government regulation and management decisions all have a bearing on the future outcomes for a company. Also understanding the future valuation that a company will attract is no simple task as often this can change quite dramatically with changes in growth rates of earnings.</p>
Diversification guidelines and limits	<p>A Fund will typically have a net equity exposure of between 50 – 100% of its Portfolio value, except for the Platinum Global Fund (Long Only) – (formerly Platinum Unhedged Fund) which will typically have a net equity exposure of between 75 – 100% of its Portfolio value.</p> <p>In general, a Fund will seldom invest more than 5% of the Fund's NAV in the securities of a single issuer at the time of investment.</p>
Risks of strategy	<p>You could lose money by investing in a Fund and the Fund could underperform other investments. Performance may differ significantly from industry benchmarks such as indices issued by MSCI Limited. You should expect a Fund's unit price and total return to fluctuate within a wide range. Each Fund's performance could be affected by:</p> <p>Manager risk: A Fund's performance depends on the expertise and investment decisions of Platinum. Platinum's opinion about the intrinsic worth of a company or security may be incorrect, a Fund's investment objective may not be achieved and the market may continue to undervalue the securities held by a Fund.</p> <p>Market risk: Security prices may decline over short or extended periods due to general market conditions, including but not limited to, inflation, foreign currency fluctuations and interest rates.</p> <p>Portfolio asset risk: Investments in equity and equity related securities generally have greater price volatility risk than debt securities. The value of securities held in a Fund may decline because of the quality of a company's management, financial condition, operations and the general health of the sector in which the company operates. Share markets can experience exceptionally high levels of volatility affecting the value of the securities traded in those markets.</p>

Risks of strategy – *continued*

Derivative risk: Investments in Derivatives may cause losses associated with changes in market conditions, such as fluctuations in interest rates, equity prices or exchange rates and, changes in the value of a Derivative may not correlate perfectly with the underlying asset. Derivative transactions may be highly volatile and can create investment leverage, which could cause a Fund to lose more than the amount of assets initially contributed to the transaction. As Over-the-Counter (“OTC”) Derivatives are customised instruments, a Fund may be unable to liquidate the Derivative contract at a fair market price within a reasonable timeframe. The OTC counterparty may be unable or unwilling to make the required delivery of the security or make the required payments.

Short selling risk: Short selling can be seen as a form of leverage and may magnify the gains and losses achieved in a Portfolio. While short selling may be used to manage certain risk exposure in a Portfolio, it may also have a significantly increased adverse impact on its return. Losses resulting from a short position may exceed the amount initially invested.

Currency risk: Investing in assets denominated in a currency other than a Fund’s base or reporting currency may cause losses resulting from exchange rate fluctuations. Platinum may choose not to hedge or any hedging strategies employed may not be successful.

Foreign issuer risk: Investments in foreign companies may decline in value because of sovereign, political, economic or market instability; the absence of accurate information about the companies; and/or risks of unfavourable government actions such as expropriation and nationalisation. Such securities may be less liquid, more volatile, and harder to value. In times of market disruptions (including but not limited to market closures), security prices may be delayed or unavailable. Some countries may have different legal systems, taxation regimes, auditing and accounting standards with less governmental regulation and transparency. These risks may be higher when investing in emerging markets.

Liquidity risk: A Fund may not be able to purchase or sell a security in a timely manner or at a desired price or achieve its desired weighting in a security.

Counterparty risk: This is the risk of loss resulting from a counterparty not meeting its obligations due to a dispute over terms, or the insolvency, financial distress or bankruptcy of a counterparty used by Platinum.

Global pandemic risk: Health pandemics could significantly affect the industries that a Fund invests in, as well as the normal operations of financial markets and the operation of Platinum, its service providers and counterparties.

Operational risks: The following risks may adversely affect a Fund and its performance: a Fund could terminate, its features could change, Platinum may not be able to continue to act as Responsible Entity; third party service providers engaged by Platinum for the Funds may not properly perform their obligations and duties; or circumstances beyond the reasonable control of Platinum may occur, such as failure of technology or infrastructure, or natural disasters.

General regulatory and tax risk: This is the risk that a government or regulator may introduce regulatory and/or tax changes, or a court makes a decision regarding the interpretation of the law, which affects the value of a Fund’s assets or the tax treatment of a Fund and its Investors. These changes are monitored by Platinum and action is taken, where appropriate, to facilitate the achievement of the investment objectives of each Fund. However, Platinum may not always be in a position to take such action.

Performance fee risk: Where performance fees are charged, Platinum may have an incentive to take higher investment risks in a Portfolio.

Disclosure Principles – *continued*

Risks of strategy – *continued*

Platinum has a duty to act in the best interests of the Investors of the Funds. Platinum's investment strategy is applied with the aim of deriving prospects for investment – this includes peer review of investment choices to investigate the merits of the case and the achievements that are expected from a company. Portfolio Managers and associated investment staff are required to comply with Platinum's conflict management policies and to operate within Platinum's compliance and risk management frameworks.

Please consult with a licensed financial adviser to determine your own risk/reward profile.

Risk management strategy

Risk management is an integral part of good management and corporate governance practice. However, in relation to any investment strategy, an element of risk is inevitable.

Platinum views risk primarily as the prospect of losing Investors' capital. The greatest risk factor is a Portfolio's security exposure and we monitor and control this risk through the following channels:

- Risk management is core to our stock selection process. As a result of our investment approach, the key risks in a Portfolio are the specific risks associated with each individual stock position. We view specific stock risk as a function of our knowledge base on the company and seek to manage and reduce risk via a process of thorough and in-depth research, detailed scrutiny by the relevant analysts and their peer group as well as ongoing monitoring. Within a Portfolio, care will be taken to avoid excessive exposure to areas that have a high co-variance.
- Our index-agnostic approach also contributes to the control of the absolute risk of a Portfolio.
- From time to time, we may utilise Derivatives to manage risk, such as:
 - selling index futures or buying index put options to reduce market risk in a Portfolio; and
 - where we have identified stocks that we believe to be overvalued, buying put options over that stock or taking short positions in the stock (see 'Disclosure Principle 7: Derivatives' on page 13 for more details). For the Platinum Global Fund (Long Only) – (formerly Platinum Unhedged Fund), there is no short selling of indices or stocks.

We manage risk associated with currency exposure through the use of derivatives contracts (e.g. foreign exchange forwards, swaps, non-deliverable forwards and currency options) and spot foreign exchange trades.

We also have a documented Risk Management Policy and have implemented a risk management framework which is based on the standard AS/NZS ISO 31000:2009 Risk Management Principles and Guidelines.

Investment strategy changes

Investors will be notified of any such changes in accordance with our obligations under the Corporations Act.

Portfolio Managers are investment analysts with stock research responsibilities and retain ultimate responsibility for a Fund's Portfolio construction. Investment analysts not identified above may share portfolio management responsibilities with the Portfolio Managers. The level of their portfolio management responsibilities will vary from time to time and will be determined by the Co-Chief Investment Officers. Portfolio Managers may also manage different funds to those stated above. The Co-Chief Investment Officers have responsibility for the implementation of the investment strategy of the Funds and the investment process across the investment team. The Funds' investment personnel spend as much time as required to accomplish the investment objectives of the Funds.

There have been no regulatory findings against any of the Portfolio Managers.

Disclosure Principles – *continued*

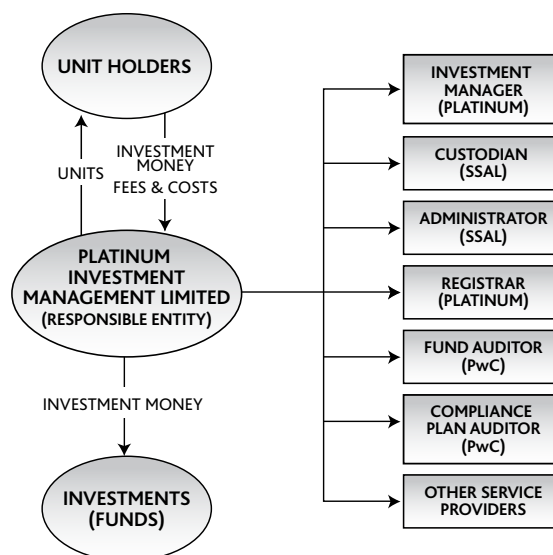

Disclosure Principle 3: Fund structure

Investment structure

Each Fund is a managed investment scheme registered with the Australian Securities and Investments Commission (“ASIC”).

Platinum is ultimately owned by Platinum Asset Management Limited (ABN 13 050 064 287), a company listed on the ASX (ASX ticker PTM). Directors, officers and employees of the Platinum group of companies have relevant interests in approximately 50% of Platinum Asset Management Limited’s issued shares.

Flow of investment money: Service providers:

Key service providers

Custodian – Platinum has appointed SSAL to act as global custodian for the Funds.

Auditor – PwC is the registered auditor for the Funds. The auditor’s role is to audit the Funds’ compliance plan and annual financial report (which includes the financial statements), perform a half-yearly review (if required), and to provide an opinion on the financial statements.

Valuation of Fund assets – Platinum has appointed SSAL to value the assets of each Fund and calculate daily unit prices.

Monitoring service providers

Platinum has in place procedures to periodically monitor key service providers to provide reasonable assurance that:

1. services rendered are in accordance with written agreements and service level standards; and
2. there is integrity in the data and information provided by service providers to Platinum.

Related party

Platinum may, in its personal capacity, invest in one or more Funds it manages.

Directors of Platinum may invest in Funds managed by Platinum.

Material arrangement

There are no material arrangements in connection with any Fund that are not on arm’s length terms.

Jurisdictions of entities in Funds’ structure

All entities involved in each Fund’s structure are based in Australia. Platinum and SSAL are subject to the jurisdiction of ASIC and AUSTRAC.

Risks of holding assets overseas

Generally, Fund securities are held in custody by SSAL and sub-custodians engaged by SSAL and/or State Street Bank and Trust Corporation (“SSBT”), located globally. Certain securities are held in omnibus accounts consistent with local market practice and in accordance with ASIC Regulatory Guide 133. In respect of these omnibus accounts, Fund securities are always separately identified in the books and records of SSAL.

Disclosure Principles – *continued*

Disclosure Principle 4: Valuation, location and custody of assets

Valuation policy	<p>Platinum has appointed SSAL to value the assets of each Fund. The NAV of each Fund is calculated in accordance with the relevant Fund's Constitution. The assets of a Fund are normally valued on each Business Day. Generally, SSAL values Fund assets using market prices that are electronically sourced from third party data vendors. SSAL may also source prices from brokers in certain circumstances.</p> <p>If, in Platinum's reasonable opinion, the value of an asset as provided by SSAL is not a fair reflection of the value of the asset that would reasonably be obtained if the asset were to be sold in the market, Platinum's Securities Pricing Committee has established procedures and controls for reviewing, approving and documenting changes to SSAL's valuation.</p> <p>Unlisted assets, such as private equity investments, are valued using a price determined by Platinum in accordance with a valuation methodology that has been approved by Platinum's board of directors having regard to certain inputs as provided by independent third parties.</p>						
Asset types and allocation ranges	<p>The principal investments in a Fund are international equities.</p> <table><thead><tr><th>Types of Asset</th><th>Allocation Range (%)</th></tr></thead><tbody><tr><td>International equities</td><td>0 – 100</td></tr><tr><td>Cash and cash equivalents</td><td>0 – 100</td></tr></tbody></table> <p>Cash and cash equivalents typically represents less than 40% of a Fund's NAV.</p> <p>A Fund may invest in bullion and other physical commodities, but the total value of such investments at the time of acquisition will not exceed 20% of the NAV of the Fund</p>	Types of Asset	Allocation Range (%)	International equities	0 – 100	Cash and cash equivalents	0 – 100
Types of Asset	Allocation Range (%)						
International equities	0 – 100						
Cash and cash equivalents	0 – 100						
Geographic location of assets	<p>The Funds primarily invest in equity and equity related securities of international companies including those in emerging or frontier markets. For the geographic location of invested positions in the Funds, please refer to the 'Invested position' information for each Fund on pages 18 – 33.</p>						
Geographic location of any material asset	<p>A material asset is a significant holding or exposure relative to a Fund's total assets. In general, a Fund will seldom invest more than 5% of the Fund's NAV in the securities of a single issuer (at the time of investment). For the geographic location of invested positions in the Funds, please refer to the 'Invested position' information for each Fund on pages 18 – 33.</p>						
Custodial arrangements	<p>Platinum has appointed SSAL to act as global custodian for the Funds. Fund securities are generally held by SSAL and sub-custodians engaged by SSAL or State Street Bank and Trust Corporation ("SSBT"). The securities of each Fund are clearly identified from the assets of Platinum, SSAL, SSBT, third party sub-custodians and SSAL's other clients. SSAL custody staff are independent of Platinum and SSAL plays no investment management role. Generally, cash is deposited with SSBT or otherwise with the relevant local sub-custodian, in each case as banker. The custody agreement between Platinum and SSAL sets out the required standard of care and conduct required of SSAL and its sub-custodians in accordance with ASIC Regulatory Guide 133 and complies with the content requirements for custody agreements under ASIC Class Order [CO 13/1409]. SSAL and SSBT monitor their sub-custodians and require them to exercise reasonable care in carrying out the terms specified in their respective sub-custodial agreements. For assets custodied at SSAL, Platinum performs a daily reconciliation to SSAL records.</p> <p>Platinum may also self-custody certain unlisted securities and rights in respect of OTC Derivatives contracts, and may open deposit accounts on behalf of the Funds with Australian banks. Platinum holds these assets on trust for the relevant Fund and ensures that such assets are identified as belonging to the relevant Fund and are not the assets of Platinum.</p>						

Disclosure Principles – *continued*

Disclosure Principle 5: Liquidity

Liquidity	The Funds primarily invest in listed international equities traded on regulated exchanges. Platinum generally maintains adequate cash levels in a Fund for the settlement of trades and to meet withdrawals made during the normal course of business.
-----------	--

Disclosure Principle 6: Leverage

Use of leverage and restrictions on the use of leverage	<p>Leverage can be defined as the use of financial products (such as Derivatives) or borrowing (such as a margin facility) to amplify the exposure of capital to an investment. A Fund may gain leveraged market exposure through the use of Derivatives.</p> <p>Investment restrictions in relation to the use of Derivatives are detailed below under Disclosure Principle 7: Derivatives.</p> <p>Whilst there is no restriction on borrowing in the Funds' Constitutions, it is Platinum's policy not to borrow on behalf of any Fund except to the extent short-term overdrafts arise from trade settlement delays. If we amend this policy, we will notify Investors by placing a notice on our website.</p>
---	---

Source of leverage including type	A Fund may use Derivatives including futures, options, swaps, credit default swaps and related instruments, to leverage the Fund.
-----------------------------------	---

Collateral usage	Derivative positions are collateralised with cash. No security holding of a Fund is used as collateral. The Funds are exposed to counterparty risk as described in 'Disclosure Principle 1: Investment strategy' on page 7.
------------------	---

Maximum anticipated and allowed level of leverage	<p>The maximum allowable leverage in a Fund is 150% of its NAV, that is, for every \$1 invested, the gross invested position of the Fund taking into account all securities and Derivatives held, is limited to \$1.50. For the purposes of this calculation, the notional value of the Derivatives is used. Further, this limitation includes all positions and does not allow for netting of any offsetting positions.</p>
---	--

Although the maximum allowable leverage in a Fund is 150% of the NAV of a Fund, a Fund's positions in long securities and Derivatives would not typically be greater than 100% of the Fund's NAV. Derivatives can be used to establish short positions in securities and thus reduce a Fund's net exposure to markets (with the exception of the Platinum Global Fund (Long Only) – (formerly Platinum Unhedged Fund)). The notional value of Derivatives may not exceed 100% of the NAV of a Fund.

The table below outlines the history of the use of leverage in the Platinum International Fund. This example can be applied to all Funds with the exception of the Platinum Global Fund (Long Only) – (formerly Platinum Unhedged Fund).

Restrictions on Leverage and Platinum International Fund's Experience Over 5 Years to 31 January 2021

Figures are as a percentage of Fund's NAV

	Allowable		Average	Last 5 Years*	
	Maximum	Minimum		Highest	Lowest
Gross (Long + Short)	150%	50% ¹	102%	111%	91%
Long positions	150%	50% ¹	89%	96%	81%
Short positions	50% ¹	0%	13%	25%	4%
Net (Long – Short)	150% ²	50% ¹	77%	88%	56%

1 This restriction is implied only by the Fund's requirement to be "typically at least 50% net invested".

2 Though maximum is 150%, typically the actual position will be 100%.

* Based on month-end positions.

Disclosure Principles – *continued*

Impact of leverage on investment returns and losses	<p>The maximum allowable leverage with greatest impact on Fund returns would likely be where a Fund was 150% long. In such a case, if the value of a Fund's securities (or the underlying securities of Derivatives) increased in value by 10%, the increase in a Fund's NAV would be 15%.</p> <p>Conversely, a fall of 10% in the value of a Fund's securities (or the underlying securities of Derivatives) would result in a fall of a Fund's NAV of 15%.</p> <p>It should be noted that as per the table above the Funds have not historically held positions of this magnitude.</p>
--	--

Disclosure Principle 7: Derivatives

Purpose and rationale for the use of Derivatives	<p>Platinum may use Derivatives:</p> <ul style="list-style-type: none">– for risk management purposes;– to take opportunities to increase returns;– to create short positions in securities or indices;– to establish positions in securities that may otherwise not be readily available (e.g. to gain access to particular stock markets where foreign investors face restrictions); and– to aid in the management of Fund cash flows (e.g. some stock markets require pre-funding of stock purchases that may be avoided through the use of Derivatives). <p>Platinum has set the following investment restrictions in respect of each Fund:</p> <ul style="list-style-type: none">– the notional value[#] of Derivatives may not exceed 100% of the NAV of a Fund; and– the value[#] of long stock positions and the notional value of Derivatives positions together will not exceed 150% of the NAV of a Fund. <p>[#] Where options are employed, the notional value will be the Delta adjusted exposure. "Delta" is the theoretical measure of the sensitivity of the option price to a change in the price of the underlying asset (usually expressed as a percentage).</p>
Types of Derivatives used	<p>Platinum currently uses the following Derivatives: futures, options, swaps (currency and equity), credit default swaps, foreign exchange forwards and related instruments.</p>
Criteria for engaging Derivative counterparties	<p>Over-the-counter ("OTC") Derivative transactions may only be entered into with approved counterparties.</p> <p>Consideration is given to the financial position and credit rating of the counterparty. Counterparties are engaged through standard market contracts such as the International Swaps and Derivative Association Master Agreement.</p> <p>The aggregate exposure of each of the Platinum International Fund and the Platinum Asia Fund to all OTC Derivative counterparties will typically be no more than 5% of the NAV of the relevant Fund, and in any event will not exceed 10% of the NAV of the relevant Fund.</p>
Key risks associated with collateral requirements	<p>Trading in OTC Derivatives generally requires the lodgement of collateral (also known as 'credit support', such as margin or a guarantee) with the counterparty. This gives rise to counterparty risk. Financial transactions that are conducted via the OTC market and which are not subject to clearing obligations, generally carry greater counterparty risk than securities traded on a recognised exchange (where the other party to the transaction is the exchange's clearing house).</p>
Trading mechanism for Derivatives utilised	<p>Platinum uses both OTC and exchange traded Derivatives (i.e. those traded on a recognised Derivatives exchange).</p>

Disclosure Principles – *continued*

Disclosure Principle 8: Short selling

Rationale	<p>The rationale behind short selling is to profit from a fall in the price of a particular security (e.g. share, index, exchange traded fund). From time to time, Platinum applies an active short selling strategy for a Fund and the level of short selling will differ between the Funds. Platinum may use short selling to reduce a Fund's net invested position and thus reduce the Fund's level of market risk, and to take opportunities to increase returns.</p> <p>Platinum generally utilises equity swaps to short sell. A swap is a Derivative contract, in which two parties (counterparties) agree to exchange payments of value (or cash flows) for another. Normally they are cash settled non-deliverable contracts (i.e. settled for profit or loss).</p> <p>Short selling is not undertaken for the Platinum Global Fund (Long Only) – (formerly Platinum Unhedged Fund) – refer to page 20.</p>																								
Risks	<p>In taking a short position, Platinum expects the asset to depreciate although there is a risk that the asset could appreciate. Unlike a long security, losses can exceed the amount initially invested.</p>																								
Risk management	<p>The risks associated with short selling are managed in the same way as the risks associated with holding a long security, that is, thorough research, daily reporting and ongoing monitoring of positions held.</p>																								
Short selling example (loss)	<p>Platinum short sells (via a swap agreement) 10,000 shares of ABC @ \$100 and closes the position when the share price rises to \$120 by entering into an equal and opposite trade.</p> <table border="1"> <thead> <tr> <th>Trade</th> <th>No. of Shares</th> <th>Share Price (\$)</th> <th>Total Income/ Cost (\$)</th> </tr> </thead> <tbody> <tr> <td>Opening sell</td> <td>10,000</td> <td>100</td> <td>1,000,000</td> </tr> <tr> <td>Borrowing cost and commission</td> <td></td> <td></td> <td>(200)</td> </tr> <tr> <td>Interest receivable</td> <td></td> <td></td> <td>250</td> </tr> <tr> <td>Closing buy</td> <td>10,000</td> <td>120</td> <td>(1,200,000)</td> </tr> <tr> <td>Loss</td> <td></td> <td></td> <td>(199,950)</td> </tr> </tbody> </table> <p>There will be additional costs and revenues from borrowing costs, commissions and the return of dividends.</p>	Trade	No. of Shares	Share Price (\$)	Total Income/ Cost (\$)	Opening sell	10,000	100	1,000,000	Borrowing cost and commission			(200)	Interest receivable			250	Closing buy	10,000	120	(1,200,000)	Loss			(199,950)

Disclosure Principle 9: Withdrawals

Significant risk factors/limitations	<p>In certain situations that impact on the effective and efficient operation of a market for an asset or assets of a Fund, we may choose to suspend the processing of all applications and withdrawals for a Fund. If this occurs, in determining the value of an asset, we will use the asset values determined after the suspension is lifted.</p> <p>Examples of such situations may include but are not limited to: global health pandemics, the threat of terrorist attacks, war or other circumstances that affect the normal operation of financial markets or the operation of custodians and Platinum's counterparties.</p> <p>Platinum will generally honour all withdrawal requests from Investors, subject to the Fund being liquid. If a Fund is not liquid, Investors may withdraw in accordance with any withdrawal offer made by Platinum. Please refer to 'Withdrawals' on page 47.</p>
Withdrawal rights and conditions	<p>You may request a full or partial withdrawal at any time subject to minimum withdrawal amounts and minimum balance requirements. You may request a withdrawal in writing or you may complete a Withdrawal Form available from Platinum's website or Investor Services.</p> <p>Withdrawal requests received (and accepted by us) by 3:00pm AEST on a Business Day will generally be processed with the exit price calculated for that Business Day. Withdrawal requests received (and accepted by us) after 3:00pm AEST on a Business Day (but before the next processing cut-off time) will generally be processed using the exit price calculated for the following Business Day.</p> <p>Subject to receiving a withdrawal request acceptable to Platinum, the proceeds can be paid by Electronic Funds Transfer to an Investor's nominated Australian or New Zealand financial institution account or by cheque, payable to the Investor in Australian dollars. Please refer to page 47 for more information.</p>
Funding of withdrawals	<p>Investor withdrawals are funded from the assets of the relevant Fund.</p>
Changes to withdrawal rights	<p>Investors will be notified of any changes to their withdrawal rights in accordance with our obligations under the Corporations Act.</p>

Benchmarks

Benchmark 1: Valuation of assets

Valuation of non-exchange traded assets

Generally, Fund assets are valued using a price provided by SSAL. In certain rare circumstances, independent valuations may not be available, for example for certain private equity investments. In these instances, prices are determined in accordance with a valuation methodology that has been approved by Platinum's board of directors having regard to certain inputs provided by independent third parties. Platinum may also make adjustments to the value of a non-exchange traded asset as provided by SSAL where in Platinum's reasonable opinion the value is not a fair reflection of the value that would reasonably be obtained if the asset were to be sold in the market. Platinum's Securities Valuation Committee has established procedures and controls for reviewing, approving and documenting any changes to values provided by SSAL.

Benchmark 2: Periodic reporting

Periodic reporting of key information

Platinum has policies in place to make available on our website the following information for each Fund as soon as practical after the relevant period:

The structure of the Funds

Each Fund is an Australian unit trust registered as a managed investment scheme. Unit trusts are vehicles which enable investors to pool their money with that of other investors.

This pooling, amongst other features, enables you to invest in markets that may otherwise be difficult to access.

Money invested will purchase a number of units which represent the Investor's holding in a Fund. Each unit in a Fund confers an equal and proportionate beneficial interest in the net assets of the Fund. The ownership of a unit will not give you an interest in any particular part of a Fund's assets or investments, or an entitlement to exercise any right, voting interest or power in respect of any such asset or investment, or an entitlement to participate in the management or operation of a Fund other than through unit holder meetings.

The operation of each Fund is regulated by the Corporations Act, its Constitution and the general law of Australia.

The Constitution of a Fund sets out the terms under which the Fund is to operate, the rights and liabilities of Investors, and the rights, powers, responsibilities and duties of Platinum as Responsible Entity of the Fund. Investors are bound by the provisions of the Fund's Constitution.

In summary, the principal rights of an Investor in a Fund are to:

- share in the Fund's investment returns;
- withdraw units held (subject to prevailing market conditions*);
- requisition, attend and vote at unit holder meetings; and
- share in the distribution of assets if the Fund is wound up.

* Refer to 'Withdrawals – Significant risk factors / limitations' on page 15 of the PDS.

Who is eligible to invest?

The Funds are open for investment to persons receiving the PDS in **Australia** or **New Zealand**.

This PDS has not been registered as an investment offer in any other country.

A Class is closed to new investors. Applications can be made by existing A Class Investors who are:

- individuals (non-superannuation monies);
- companies;
- trustees (of, for example, superannuation funds, charities, family trusts);
- government bodies;
- incorporated bodies (for example, companies, strata bodies corporate, associations, unions);
- others (for example, partnerships, unincorporated associations, registered co-operatives); and
- Investor Directed Portfolio Services ("IDPS"), IDPS-like schemes or nominee or custody services (for example, wrap, master trust) where Platinum has entered into an agreement for the Funds to be offered through the service.

The Funds' Constitutions allow Platinum to accept or refuse any application.

Warning

The Funds are not suited to Investors who:

1. Expect returns to mirror or better an index at all times. Platinum's investment process pays no heed to recognised benchmarks, such as indices issued by MSCI Limited.
2. Expect to make significant short-term gains. The minimum suggested time horizon for each Fund is five or more years.
3. Cannot tolerate that there may be substantial fluctuations in the value of their investment. Equity markets are volatile and fluctuations will occur in the value of your investment in the Funds.

Platinum International Fund

Investment objective

The Fund aims to provide capital growth over the long-term by investing in undervalued companies from around the world.

The Fund's investments

The Fund primarily invests in listed securities. The Portfolio will ideally consist of 70 to 140 securities that Platinum believes to be undervalued by the market. Cash may be held when undervalued securities cannot be found. Platinum may short sell securities that it considers overvalued. Refer further to 'Disclosure Principle 8: Short selling' on page 14.

The Portfolio will typically have 50% or more net equity exposure.

The Portfolio is constructed in accordance with Platinum's 'Investment Strategy' – refer to page 4.

It should be noted that Platinum does not invest by reference to the weighting of the Index. Underlying assets are chosen through Platinum's individual stock selection process and as a result holdings will vary considerably to the make-up of the Index. The Index is provided as a reference only. The gross Index was used prior to 31 December 1998 as the net Index did not exist.

The investment returns shown are historical only. Past performance is not a reliable indicator of future performance and no warranty can be given or is given for future performance of the Fund. Owing to the volatility of the underlying assets of the Fund and other risks associated with investing, investment returns can be negative (particularly in the short-term). History indicates that the Fund's unit prices, and therefore investment returns, can move by more than 20% per quarter. Movement can be positive or negative.

Platinum Global Fund (Long Only) – (formerly Platinum Unhedged Fund)

Investment objective

The Fund aims to provide capital growth over the long-term by investing in undervalued companies from around the world.

The Fund's investments

The Fund primarily invests in listed securities. The Portfolio will ideally consist of 40 to 80 securities that Platinum believes to be undervalued by the market. The Fund does not engage in short selling but may use Derivatives to achieve long equity exposure and for currency management purposes. Refer further to 'Disclosure Principle 7: Derivatives' on page 13.

The Portfolio will typically have around 75% or more net equity exposure.

The Portfolio is constructed in accordance with Platinum's 'Investment Strategy' – refer to page 4, except that there is no short selling of indices or stocks.

The Portfolio is generally constructed using the best high conviction ideas drawn from all the Platinum Trust Funds, with a few exceptions. On account of the relatively concentrated nature of the Portfolio, holdings that carry great conviction will generally be larger than in the Platinum's "risk managed" products (i.e. the other Funds).

Platinum Asia Fund

Investment objective

The Fund aims to provide capital growth over the long-term by investing in undervalued companies in the Asian region excluding Japan.

The Fund's investments

The Fund primarily invests in listed securities of Asian companies. Asian companies may list their securities on securities exchanges other than those in Asia and the Fund may invest in those securities. The Fund may invest in companies not listed in Asia but where their predominant business is conducted in Asia. The Fund may invest in companies that benefit from exposure to the Asian economic region.

Platinum defines "Asia" as all countries that occupy the eastern part of the Eurasian landmass and its adjacent islands and is separated from Europe by the Ural Mountains, and includes the Russian Far East and companies based in China, Hong Kong, Taiwan, Korea, Malaysia, Singapore, India, Thailand, Indonesia, Philippines, Sri Lanka, Pakistan and Vietnam.

The Portfolio will ideally consist of 40 to 100 securities that Platinum believes to be undervalued by the market. Cash may be held when undervalued securities cannot be found. Platinum may short sell securities that it considers overvalued. Refer further to 'Disclosure Principle 8: Short selling' on page 14.

The Portfolio will typically have 50% or more net equity exposure.

The Portfolio is constructed in accordance with Platinum's 'Investment Strategy' – refer to page 4.

Platinum International Brands Fund

Investment objective

The Fund aims to provide capital growth over the long-term by investing in well-recognised as well as up-and-coming, consumer brand names (including but not limited to producers of household consumables and durables, luxury goods, retailers, and consumer services in areas such as finance, travel, leisure, and digital media).

We believe that successful brand management involves establishing an association in the minds of consumers with the positive tangible and intangible traits of the product or service. Tangible aspects may include high quality products, low-priced merchandise, or high convenience or most useful service; and intangible features such as luxuriousness, dependability, or perceived safety. The successful maintenance of this association causes consumers to purchase the product or use the service in preference to alternative options, and can allow the brand-owner to earn an economic rent above its cost of capital while generating above-average growth. We utilise this brand framework to identify attractive investment opportunities in consumer brand companies. Our investment case may be driven by aspects such as our view on future growth, the potential of recovery from a period of mismanagement, or the possibility of recognition of latent brand value by a strategic partner.

The Fund's investments

The Fund primarily invests in listed securities. The Fund invests in a diverse range of branded consumer companies from well-recognised multinationals with iconic globally recognised consumer brands, through to companies with local or regional brands that have little or no recognition outside of their home market. Accordingly, the Fund can have investments in companies listed on exchanges across a wide variety of countries including those considered to be emerging or developing markets which, in aggregate, could be a significant proportion of the Fund.

The Portfolio will ideally consist of 40 to 80 securities that Platinum believes to be undervalued by the market. Cash may be held when undervalued securities cannot be found. Platinum may short sell securities that it considers overvalued. Refer further to 'Disclosure Principle 8: Short selling' on page 14.

Platinum International Health Care Fund

Investment objective

The Fund aims to provide capital growth over the long-term by investing in health care companies from around the world, ranging from those companies engaged in early exploratory research through to those providing health care services directly to consumers such as hospitals or health insurance.

The Fund seeks to take advantage of the substantial changes that are occurring in the fields of health care and medicine. There are significant political, social and economic trends influencing the global health care market that will provide areas of investment opportunity as the markets interpret these changes.

In the scientific and technical fields, major advances are being made in the understanding of diseases as the benefits of new technologies are brought to bear on highly complex issues such as understanding the pathogenesis of diseases through to diagnosing and personalising treatments based on genetic differences.

The Fund's investments

The Fund primarily invests in health care companies listed on securities markets around the world. However, the Fund may have some exposure to unlisted investments. It invests in companies engaged in many aspects of providing products and services to the health care industry such as biotechnology, pharmaceuticals, diagnostics, laboratory technologies, distribution, hospitals and nursing care, health insurance and the provision of information technology to such companies.

The Fund will, at times, invest in companies engaged in early stage research and the development of new drugs or treatments. The clinical trial process for such developments has a long gestation period, taking from a few years to many decades to complete. These companies face significant scientific, regulatory and, at times, legal risks with these programs where it is impossible to be certain of a successful outcome. Many of these programs fail, which can impact the volatility and returns of the investment and the Portfolio. The global health care industry is subject to regulatory and political influences that can also be unpredictable and economically adverse.

The construction of the Portfolio can ameliorate only some of the risks associated with investing in companies engaged in the complexities of research and development that span many years. Investors should anticipate periods of significant fluctuations and recognise that some of the investments made by the Fund might take many years to realise their potential (if at all).

The Portfolio will ideally consist of 30 to 100 securities that Platinum believes to be undervalued by the market. Cash may be held when undervalued securities cannot be found. Platinum may short sell securities that it considers overvalued. Refer further to 'Disclosure Principle 8: Short selling' on page 14.

The Portfolio will typically have 50% or more net equity exposure.

Platinum International Technology Fund

Investment objective

The Fund aims to provide capital growth over the long-term by investing in information technology, telecommunications and electronics companies from around the world, including providers of hardware, software, services and content.

The Fund's investments

The Fund primarily invests in technology and telecom securities listed on securities markets around the world.

The Fund will also invest in providers of computing, networking and telecommunications equipment, software, semi-conductors and related capital equipment providers, IT services, as well as network operators, content providers and "Internet" based businesses.

The Portfolio will ideally consist of 40 to 100 securities that Platinum believes to be undervalued by the market. Cash may be held when undervalued securities cannot be found. Platinum may short sell securities that it considers overvalued. Refer further to 'Disclosure Principle 8: Short selling' on page 14.

The Portfolio will typically have 50% or more net equity exposure.

The Portfolio is constructed in accordance with Platinum's 'Investment Strategy' – refer to page 4.

The Funds' Investments

Authorised Investments

The Constitutions of the Funds permit a wide range of investments. Notwithstanding this wide range of investments, Platinum typically invests in listed equity securities of companies, cash and cash equivalents, Derivatives (including OTC Derivatives) and foreign exchange contracts.

The Platinum International Fund and the Platinum Asia Fund will not invest in unlisted equity securities, except in the case of initial public offers of securities, or where an unlisted securities holding arises inadvertently, for example due to a corporate event. Any investments in such unlisted securities will be kept to a *de minimis* amount at all times.

A Fund may invest in bullion and other physical commodities, but the total value of such investments at the time of acquisition will not exceed 20% of the NAV of the Fund.

Currency

International equity investments create an exposure to foreign currency fluctuations, which can change the value of the equity investments measured in a Portfolio's reporting currency (the Australian dollar). Assessment of potential returns and risks created by currency exposure, and appropriate positioning of a Fund's Portfolio to attempt to capture those returns, and minimise those risks, are a component of Platinum's investment process.

Platinum may seek to hedge a Fund's foreign currency exposure using foreign exchange forwards, swaps, non-deliverable forwards, currency options and spot foreign exchange trades.

More generally, Platinum will take account of currency exposures in an attempt to maximise returns and minimise risks in a Fund's Portfolio. This includes assessing the indirect impact of currency on a business (e.g. the impact of currency fluctuations on a manufacturing company with significant export sales), and the potential for exchange rate movements to amplify or diminish reporting currency returns for a holding. The investment of cash holdings is also undertaken with consideration of the potential currency impact on the cash (as well as interest rate and credit risk considerations).

The aim is for a Fund's Portfolio to be exposed to the greatest extent possible to appreciating currencies and to a minimum to depreciating currencies.

Currency rates are set by supply and demand for the currency. For freely floating currencies, supply and demand is a function of trade flows (import/export flows), and other cross border payments (e.g. foreign direct investment, borrowings, interest and dividends payments, and capital market flows, including speculative currency flows). For currencies which are fixed, pegged, or intervened in by governments (to a greater or lesser extent) government policy towards the currency will also affect the exchange rate either exclusively or to some extent.

Platinum assesses the prospects for foreign currencies by analysing these factors and their likely future evolution. The research process is informed by drawing upon a range of sources, including research from analysts at investment banks and stockbrokers, government papers and statistics, and findings and insights derived from our stock research. Over any period, movement of currencies can be driven by a number of these factors, and indeed the importance of speculative/capital markets driven flows can be a significant driver in the short to medium term. Key factors driving these flows include interest rate differentials, economic performance and prospects for a country's stock market and key industries. Over the long-term, trade flows, relative inflation rates, purchasing power parity measures, and government policy will be drivers.

Securities lending

The Funds' Constitutions permit Platinum to enter into securities lending arrangements.

Environmental, social and governance ("ESG") considerations in investing

Platinum is a fundamental equity investor and believes that private enterprise plays a central role in wealth creation and social advancement. It is also our belief that value creation for shareholders ought to be aligned with value creation for society at large. Platinum invests with a long-term outlook (typically five years or more) and, as part-owners of the enterprises in which we invest, it is paramount to us that they maintain their social licence to operate. As such, Platinum views social and environmental sustainability as well as sound corporate governance as being vital to a company's long-term viability, growth and profitability.

Platinum's approach is focused on identifying companies whose intrinsic value is under-appreciated by the market due to temporary drawbacks or irrational market sentiments. Material ESG trends and factors can directly and indirectly impact on a company's financial performance and prospects, and, consequently a company's valuation.

To assess a company's true worth – the core of Platinum's mission, a nuanced consideration of the company's operations and operating environment is essential, and the evaluation of material ESG issues and risks, like traditional financial and operational factors, is an integral part of this exercise.

Incorporating ESG considerations into the investment process by employing a robust framework can lead to more informed and holistic investment decision-making and, ultimately, better investment outcomes for our investors.

Platinum has adopted a Responsible Investment Policy, which outlines our approach to integrating ESG considerations into our investment process, engagement with our portfolio companies as well as to proxy voting. The following is a summary of our Responsible Investment Policy.

A. ESG integration in Platinum's investment process

In incorporating ESG analysis into its investment process, Platinum employs three main integration techniques: exclusionary screening, thematic analysis and, most importantly, integrated analysis.

- 1. Exclusionary screening:** Platinum applies exclusionary screens to avoid investing in certain industry sectors. These currently include companies that are engaged predominantly in the manufacture and sale of tobacco products or military weapons as well as companies that are subject to restrictive measures under relevant sanctions programs. However, as ethical values and norms can be subjective and controversial, Platinum exercises a high degree of caution when setting exclusionary screens.
- 2. Thematic analysis and idea generation:** Many of the themes underlying Platinum's investment ideas may pertain to ESG issues, such as the transnational efforts to boost renewable energy generation and consumption, the growing demand for aged care, and regulatory reforms to curtail corruption. Platinum conducts positive and negative thematic analyses of ESG trends and drivers to generate investment ideas. We study trends that are driving positive environmental or social change to identify the sectors and companies that are best positioned to take advantage of the opportunities by being a contributor to or a beneficiary of the change. Conversely, when a negative ESG trend such as regressive corporate behaviour is observed, not only do we assess the ensuing financial, regulatory and other risks for the companies concerned, but we may also derive new investment ideas by considering whether competitor companies and neighbouring industry sectors might have, or gain, a competitive advantage by employing more socially or environmentally responsible strategies to achieve more sustainable outcomes.
- 3. Integrated ESG analysis in stock research:** The consideration of material ESG issues and factors is ingrained in the ways in which we seek to understand how businesses work and forms part of the fundamental research on each investment case along with traditional financial and operational factors. ESG factors are integrated into both the qualitative and quantitative analyses that ultimately lead to an assessment of the company's fair value.

The ESG factors that Platinum may examine are wide-ranging and would depend on the industry concerned as well as the geographic location of the business. Environmental considerations include, for example, carbon footprint, resource depletion, and waste management. Social factors include, but are not limited to, working conditions and industrial relations, community resettlement (e.g. by mining companies or real estate developers), product safety, and cybersecurity. Governance extends to, for example, executive compensation, board independence and diversity, as well as having processes in place to prevent bribery, corruption and other malpractice.

These issues can have an impact on the environment and/or communities (including employees and consumers), but they also present regulatory, operational and economic risks to the company which may potentially have a material impact on its financial performance and hence investor returns.

B. Platinum's approach to engagement

Platinum seeks to actively engage with our portfolio companies to deepen our understanding of management's views and strategies on ESG-related issues and to voice any concerns we may have about them. Our analysts will typically meet or speak with members of the management team both before we initiate a long position in a company and periodically after we invest in the company. The questions Platinum puts to management may encompass targeted questions relating to ESG factors, such as supply chain management, employee relations, environmental risk and mitigation as well as corporate governance.

Platinum will raise its concerns with management if it believes that the company is pursuing a course of action that risks jeopardising the sustainability of the business and is thus detrimental to shareholder value. However, given the diversified nature of our portfolios, we are realistic about the extent to which we can effect change through active ownership, and we may choose to exit a position in cases of material ESG risks rather than persisting with attempts to engage with an unreceptive management team.

C. Platinum's approach to proxy voting

Voting decisions are made on a case by case basis. Given that taking long positions in a company generally reflects our alignment with and confidence in its management, Platinum will generally appoint management as its voting proxies unless it holds a contrary view on a particular motion.

Platinum does not participate in protest voting, and will only vote with the intention of having the motion carried. As such, unless we intend for a particular motion to be defeated, we will generally vote in favour of the motion, but may also abstain from voting on company formalities.

We will vote on significant matters, such as proposed share buy-backs, mergers and acquisitions, significant asset divestments and business reorganisations, and will exercise our voting rights in the best interests of our Investors after careful consideration of all available information. Where deemed appropriate, Platinum may, on occasion, consult with external proxy advisors on significant resolutions. However, the ultimate decision lies with Platinum's investment team.

It is important to bear in mind that Platinum's central endeavour is to deliver positive absolute returns for our Investors over the long-term and the integration of ESG considerations into Platinum's investment process is aimed at furthering this objective. Platinum invests with an in-built sensibility to ESG issues in ways that are outlined above, but the Funds are not intended to be characterised under conforming labels such as "ethical investment" or "green fund".

Fees and Other Costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website (www.moneySMART.gov.au) has a managed funds fee calculator to help you check out the different fee options.

This document shows the fees and other costs you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the managed investment scheme as a whole.

Taxes are set out on page 51 of this PDS.

You should read all of the information about fees and costs because it is important to understand their impact on your investment.

Type of fee or cost	Amount	How and when paid	
Management costs			
The fees and costs of managing your investment. As at the date of this PDS, management costs consist of the following components:			
Platinum International Fund			
Investment management fee ¹	0.75%	Investment management fee: The stated investment management fee is the effective investment management fee for managing your investment i.e. the fee that each Investor will pay after Platinum has rebated a portion of the actual investment management fee of 1.35%. The actual investment management fee of 1.35% is accrued daily and reflected in the Fund's daily unit price. It is paid monthly to Platinum from the assets of the Fund. A rebate is paid by Platinum to each Investor monthly by way of additional A Class units in the Fund, such that the effective investment management fee paid by an Investor is 0.75%. Investment performance fee: This fee is payable where a Fund's return exceeds its hurdle return ³ . This fee is calculated as 15% (plus GST of 1.5%) of the amount by which the Fund's return (after investment management fees) exceeds its hurdle return at 30 June each year. If payable, this fee will be deducted from any distribution entitlement and to the extent that the distributable income is not sufficient, then by a withdrawal of units. The stated investment performance fee for each Fund has been calculated based on the average of actual investment performance of the relevant Fund for the last 10 years up to and including 30 June 2020. It is an estimate only. The actual investment performance fee for a Fund may change considerably from the estimate provided.

- 1 The actual and the effective investment management fees are inclusive of GST less any expected reduced input tax credits. As the Funds invest predominantly in international securities, the impact of GST on the actual and the effective investment management fees is currently negligible. To the extent that the GST impact on a Fund changes, for example exposure to Australian securities increases, the actual and the effective investment management fees may differ from those stated. See "Investment management fee" in the "Additional Explanation of Fees and Costs" section on page 40.
- 2 The estimated investment performance fee for each Fund represents Platinum's reasonable estimate of the prospective investment performance fee, and has been calculated based on the average of actual investment performance for the last 10 years up to and including 30 June 2020. This estimate assumes that an Investor entered the Fund at the start of the 10 year period and did not withdraw units from the Fund during that period. This estimate is inclusive of GST. Past performance is not a reliable indicator of future performance. The actual investment performance fee payable (if any) will depend on the performance of the Fund over the relevant period. See "Investment performance fee" in the "Additional Explanation of Fees and Costs" section on page 40.
- 3 The hurdle return for a Fund is the return of the nominated index as set forth on page 41.

Transactional and operational costs such as brokerage (including research), transactional taxes, settlement costs and transactional and operational costs associated with the use of Derivatives are incurred when a Fund acquires or disposes of assets. The amount of these costs will vary from year to year depending on the volume and value of trades undertaken.

The net transactional and operational costs of a Fund represent the total transactional and operational costs for the Fund less the total amount recovered through the Fund's buy/sell spread.

Transactional and operational costs are not included in the management costs of a Fund. Instead, they are recovered from the assets of the Fund and will impact the return on your investment. They are an additional cost to you.

Fees and Other Costs – *continued*

Buy/sell spreads

A portion of the total transactional and operational costs are recovered from Investors entering or exiting a Fund. Buy spreads are charged to enter a Fund (buy units) and sell spreads are charged to exit a Fund (sell units). They are charged because entering or exiting a Fund necessitates the buying or selling of a Fund's investments, which means a Fund will incur transactional and operational costs. The buy/sell spreads for a Fund are based on our estimate of the transactional and operational costs incurred by the Fund to invest application money received or sell assets to fund withdrawal payments.*

The current buy/sell spreads for each Fund are available on Platinum's website at:

www.platinum.com.au/PIF

www.platinum.com.au/PGFLO

www.platinum.com.au/PAF

www.platinum.com.au/PEF

www.platinum.com.au/PJF

www.platinum.com.au/PIBF

www.platinum.com.au/PIHF

www.platinum.com.au/PITF

From time to time, we may vary the buy/sell spread and we will not ordinarily provide prior notice. Any changes to a Fund's buy/sell spread will be updated on Platinum's website at links provided above.

The buy/sell spread aims to ensure that non-transacting Investors do not pay the transactional and operational costs associated with an Investor entering or exiting a Fund. The buy/sell spreads are not fees paid to Platinum – they are retained by the Funds to cover transactional and operational costs as they are incurred.

The buy spreads are built into a Fund's entry price and the sell spreads are built into a Fund's exit price. The buy/sell spread is an additional cost to transacting Investors.

* Our discretion in determining the buy/sell spread is carried out in accordance with documented policies – copies of which are available from us at no charge.

Management costs

The management costs of each Fund include an investment management fee and an investment performance fee.

Currently, Platinum does not separately recover expenses from the Funds. Expenses and outgoings which are incurred in connection with the operation of a Fund e.g. audit costs, the costs of legal and taxation advice, costs of annual financial statements, Investor reporting and distribution, marketing and other allowable expenses, are currently paid for by Platinum.

As the Funds invest predominantly in international securities, the impact of GST on the management costs is currently negligible. To the extent that the GST impact on a Fund changes, for example exposure to Australian securities increases, the actual management costs may differ from those stated.

Investment management fee

The stated investment management fee is the effective investment management fee for managing your investment i.e. the fee that each Investor will pay after Platinum has rebated a portion of the actual investment management fee of 1.35%.

The actual investment management fee of 1.35% is, calculated and accrued daily, and paid monthly to Platinum from the assets of the Fund. A rebate is paid by Platinum to each Investor monthly by way of additional A Class units in the Fund, such that the effective investment management fee paid by an Investor is 0.75%.

The actual and the effective investment management fees are inclusive of Australian GST less any expected reduced input tax credits. As the Funds invest predominantly in international securities, the impact of GST on the actual and the effective investment management fees is currently negligible. To the extent that the GST impact on a Fund changes, for example exposure to Australian securities increases, the actual and the effective investment management fees may differ from those stated.

Investment performance fee

In addition to the investment management fee, Platinum will also charge an investment performance fee of 15% (plus GST of 1.5%) of the amount by which a Fund's return* (after investment management fees) exceeds its hurdle return# as at 30 June each year – refer to the *Worked example* on page 41.

* A Fund's return is calculated by Platinum and represents the percentage change in the A Class unit price over the relevant period of time (after investment management fees).

The hurdle return is the percentage change in the nominated index for the Fund over the relevant period of time. The nominated index for each Fund is stated in the table on page 41.

If the return of the Fund in a year is less than the hurdle return, the underperformance for that year will be carried forward and applied against the next year's return for the Fund for the purpose of calculating that next year's investment performance fee. Any prior years' underperformance must be recovered before a performance fee becomes payable. Generally, the greater the investment performance of the Fund, the greater the investment performance fee payable and therefore the greater the overall management costs for the Investor.

The investment performance fee is calculated for participating Investors on 30 June each year. If you invested part way through the year, your investment performance fee will be calculated from the date that your units were issued until 30 June. The fee will be deducted from any distribution you may be entitled to and to the extent that such distribution is not sufficient, then by a withdrawal of your units. If you withdraw units during the year, your investment performance fee will be calculated at the time of the withdrawal and deducted from your withdrawal proceeds.

The investment performance fee payable is dependent on the relative outperformance of the Fund against the nominated index and can vary significantly from year to year. Please refer to the *Worked example* on page 41.

Fees and Other Costs – *continued*

Nominated indices

The nominated indices for the Funds are set forth below:

Fund	Nominated index
Platinum International Fund	MSCI All Country World Net Index in \$A
Platinum Global Fund (Long Only) – (formerly Platinum Unhedged Fund)	MSCI All Country World Net Index in \$A
Platinum Asia Fund	MSCI All Country Asia ex Japan Net Index in \$A
Platinum European Fund	MSCI All Country Europe Net Index in \$A
Platinum Japan Fund	MSCI Japan Net Index in \$A
Platinum International Brands Fund	MSCI All Country World Net Index in \$A
Platinum International Health Care Fund	MSCI All Country World Health Care Net Index in \$A
Platinum International Technology Fund	MSCI All Country World Information Technology Net Index in \$A

Worked example

The following table provides some simplified examples of investment performance fee calculations for various different Fund performance scenarios. It assumes: hypothetical values; an investment of \$500,000 is held for the full performance period; there is no underperformance carried forward from prior performance periods; and there are no applications, withdrawals or distributions during the performance period.

Performance fee rate	Example of Fund's performance relative to the nominated index	Investment performance fee payable on an investment of \$500,000 held for the full financial year
16.5% (incl. GST)	-10%	Nil
16.5% (incl. GST)	-5%	Nil
16.5% (incl. GST)	0% (i.e. fund performance equaled index return)	Nil
16.5% (incl. GST)	+5%	\$4,125
16.5% (incl. GST)	+10%	\$8,250

These examples are provided for illustrative purposes only and do not represent any actual or forecasted performance of a Fund. They do not indicate the future performance of a Fund. It is not possible to estimate the actual investment performance fee payable for any Fund over any given period as it is not possible to forecast a Fund's performance. We do not provide any assurance that the Funds will achieve any of the performance figures used in the examples above and you should not rely on this in determining whether to invest in any Fund.

Fees and Other Costs – *continued*

Fees permitted under the Funds' Constitutions

The Constitutions of the Funds allow for higher fees to be charged than those detailed on pages 36 to 41, and specify the circumstances in which additional fees may be charged, such as:

- a maximum contribution fee of 10% of an Investor's application amount. Currently, we do not charge a contribution fee;
- an application facility fee to be deducted from an Investor's application money. Currently, we do not charge an application facility fee;
- a withdrawal facility fee to be charged to Investors who use a withdrawal facility. Currently, we do not charge a withdrawal facility fee;
- a maximum trustee fee of 0.10% per annum of a Fund's NAV. Currently, we do not charge a trustee fee;
- a maximum trustee termination fee of 2.00% of a Fund's NAV on the termination of a Fund or the removal of Platinum as Responsible Entity of a Fund;
- a maximum investment management fee (excluding ongoing recoverable operating expenses) of up to 2.00% per annum of a Fund's NAV.

The Constitutions also provide that the maximum aggregate fee charged by Platinum, may not exceed 7.00% per annum, of a Fund's NAV.

Changes to fees

We have the right to increase the fees or to charge fees not currently levied, or charge fees more regularly, up to the maximum limits set forth in a Fund's Constitution. If we choose to exercise this right, we will provide you with at least 30 days prior notice.

Government charges

Government taxes such as stamp duty will be applied to your account or proceeds as appropriate.

Miscellaneous fees

Any charges to Platinum by your financial institution may be deducted from your application monies, account balance or investment proceeds (as appropriate). This includes:

- cheque or direct debit dishonour fees;
- electronic transfer fees (where your application monies are returned, for example we did not receive an Application Form or additional investment instruction, or we make an international funds transfer on your behalf);
- bank-tracing fees (where you don't advise us of your direct deposit or EFT to the Funds' bank account); and
- BPAY® fees (where your application monies are returned, for example we did not receive an Application Form or additional investment instruction).

Each of the above fees should be no more than \$50.00.

© Registered to BPAY Pty Ltd ABN 69 079 137 518

Differential Fees

In accordance with the ASIC Corporations (Registered Schemes – Differential Fees) Instrument 2017/40, Platinum may, in its discretion and in accordance with applicable law, negotiate and agree a lower investment management fee or a rebate or a waiver of part of its investment management fee for a wholesale client within the meaning of section 761G of the Corporations Act.

Financial adviser fees

We do not pay service fees or commissions to financial advisers. You may agree to pay your financial adviser a fee for any financial advice that they provide to you.

Fees for indirect investors

For investors who access a Fund through an Investor Directed Portfolio Service ("IDPS"), IDPS-like scheme or a nominee or custody service (collectively referred to as "master trusts" or "wrap accounts"), additional fees and costs may apply. These fees and costs are stated in the offer document provided by your master trust or wrap account operator. These fees are not paid to Platinum.

Additional payments made by Platinum

We may make product access payments (flat dollar amounts) to the operators of master trusts and wrap accounts who distribute our Funds on their investment menu. We may also provide certain payments or other non-monetary benefits to dealer groups and other financial services licensees to the extent it is permitted under law. All payments and non-monetary benefits referred to herein are funded by Platinum out of our own resources, and are not an additional cost to you.

Soft dollar arrangements

We may, in accordance with applicable laws, receive goods and services (such as third party research) from brokers where such goods and services assist us in managing the Funds.

Investing in the Funds

A Class is closed to new investors. A Class is only available to existing A Class Investors. Existing A Class Investors may make additional investments under this PDS in A Class units of Funds that they already invest in, and may make new investments under this PDS in A Class units of Funds that they do not currently invest in.

Initial investment in a new Fund

The minimum initial investment in a Fund is **A\$500,000**.

To apply:

- complete the Application Form included at the back of this PDS. Section 1.2 of the Application Form details the sections that you must complete depending on your investor type. Once completed, sign the Application Form and send* to Platinum.

* You may fax or email to us, or otherwise upload via the Platinum secure client website, your completed Application Form and if required certified identification documentation. Although, if you use fax or email for this purpose we ask that you phone us to verify receipt – refer to 'Facsimile, email and internet – terms and conditions' on page 54. Otherwise, you will need to mail or deliver the original completed Application Form and (if required) certified identification documentation, to Platinum.

Additional investments in an existing Fund

An additional application may be made at any time.

There is no minimum additional investment amount.

To apply:

- write to us – please state your investment account number and name, the Fund and amount you wish to invest, and how your monies will be transferred to Platinum; or
- complete an Additional Investment Form (available from Platinum's website or Investor Services). Once completed, send* to Platinum.

* You may fax or email to us or otherwise upload via the Platinum secure client website, your written instruction or Additional Investment Form, although if you use fax or email for this purpose we ask that you phone us to verify receipt – refer to 'Facsimile, email and internet – terms and conditions' on page 54.

Regular Investment Plan

The Regular Investment Plan enables you to regularly add to your existing investments on a monthly or quarterly basis.

The minimum initial investment in a Fund under the Regular Investment Plan is A\$500,000, with a minimum investment of A\$200 or NZ\$200 per Fund per month or quarter.

Your specified amount will be deducted from your participating financial institution account on the 19th of each month (or on the 19th of a particular month for a quarterly plan). Where the 19th falls on a non-Business Day, money will be debited from your account on the next Business Day.

The entry price that will apply to an investment made under a Regular Investment Plan will be based on when we receive your money from your financial institution. For example, a debit made after 3:00pm AEST on a Business Day should generally cause your funds to be invested with the entry price calculated for the next Business Day.

We will notify you when your Regular Investment Plan has been set-up (including the commencement date of the first debit from your financial institution account).

If you make a full switch (i.e. from one Fund to another Fund), we will transfer and apply your Regular Investment Plan to the new Fund (i.e. the one you switch to).

To initiate this service, complete the relevant section of the Application Form (if a new investment is being made), or the Regular Investment Plan Form. If you select a New Zealand financial institution account for the service, then you must (instead) complete the New Zealand Specific Direct Debit Authority Form. Forms are available from Platinum's website or Investor Services.

For Investors who select an Australian financial institution account for this service, the terms and conditions of the Direct Debit Service Agreement on page 59 will apply. For Investors who select a New Zealand financial institution account for this service, the terms and conditions on the New Zealand Specific Direct Debit Authority Form will apply.

We reserve the right to cancel your direct debit arrangement if two or more consecutive debits are returned unpaid by your nominated financial institution. Standard government fees, duties and bank charges (including dishonour fees and conversion costs) may apply to investments. These are paid by you.

Transferring your application monies to Platinum

By direct debit

You can authorise Platinum to debit investment amounts directly from your nominated Australian financial institution account by completing the relevant section of the Application Form or Additional Investment Form.

Investors who select this option and provide authorisation agree to the terms and conditions of the Direct Debit Service Agreement on page 59. We are only able to offer this facility in A\$.

For applications made under the direct debit arrangement we will endeavour to debit your nominated financial institution account on the day your completed application is received and processed by us or your earliest debit date if specified on the Application Form (if this date is later), provided that your application meets our processing requirements.

The entry price that will apply to an investment made under the direct debit arrangement will be based on when we receive your money from your financial institution. For example, a debit made after 3:00pm AEST on a Business Day should generally cause your funds to be invested with the entry price calculated for the next Business Day.

Investing in the Funds – *continued*

By cheque

Drawn in **A\$ only**, and made payable to 'Platinum Trust'.

By EFT or direct deposit

In A\$ paid to the Funds' Australian bank account, or NZ\$ paid to the Funds' New Zealand bank account. Details:

	Australia	New Zealand*
Account name:	Platinum Trust	Platinum Trust
Bank:	National Australia Bank	Bank of New Zealand
SWIFT:	NATAAU3302S	–
BSB:	082 057	–
Account number:	47598 3952	02 0500 0741112 001

Please ensure that you:

- ask your financial institution to **record the Investor's name** as a narrative on the EFT instruction (or if direct deposit, ask the Funds' bank to add the Investor's name as a reference against the deposit)[#]; and
- **notify Investor Services** of the details of your EFT or direct deposit as soon as possible so that we can proceed to identify your money (and if deposited to the New Zealand bank account, so that we can instruct to transfer your money to the Funds' Australian bank account).

* EFT and direct deposits to the Funds' **New Zealand bank account** require transfer to the Funds' Australian bank account before the processing of your application can occur – refer to 'Identifying your application monies' on page 45. We will only instruct to transfer your monies once your application meets our processing requirements (e.g. completeness). The Bank of New Zealand will transfer your monies using an exchange rate it determines (at the time of processing) to be market rate.

Failure to do this may delay the identification of your monies and processing of your application – refer to page 45.

By **BPAY**

You can make additional investments (not initial investments) using **BPAY**.

Contact your participating **Australian** financial institution* to establish this service. You will need to quote **Platinum's Biller Code 252643** and your **Platinum BPAY Reference Number** (refer to your last transaction confirmation or statement). Your Platinum **BPAY Reference Number** is required so that we can identify your application monies.

Please notify Investor Services in writing of your **BPAY** deposit (including which of the Funds the monies are to be applied to). **BPAY** instructions submitted prior to 6:00pm AEST on a Business Day should generally meet the 3:00pm AEST cut-off on the next Business Day, provided that you give us notice of your **BPAY** deposit before that time.

* **BPAY** is not currently available for New Zealand financial institutions.

If your total investment amount is funded by a number of part payments, Platinum will not process the application until the total investment amount is received and identified (unless otherwise specified in writing).

Processing of your Application for Investment

Applying for Units

Your Application Form (or Additional Investment Form or written request if an additional investment)* and application monies must be received and identified (and accepted by us)# by **3:00pm AEST on a Business Day** to be processed with the entry price calculated for that Business Day. Applications received and identified (and accepted by us) after **3:00pm AEST on a Business Day** (but by the next cut-off time) will generally be processed using the entry price calculated for the next Business Day. Unit prices of a Fund for a Business Day are usually calculated on the next Business Day.

For example:

- An application accepted by us at 10:00am AEST on a Tuesday (which is a Business Day) should generally be processed with the entry price calculated on Wednesday using closing prices of global equity markets on Tuesday.
- An application accepted by us at 4:00pm AEST on a Tuesday (which is a Business Day) i.e. after the cut-off for Tuesday, should generally be processed with the entry price calculated on Thursday using closing prices of global equity markets on Wednesday.

The transaction date which will appear on your confirmation will be the acceptance date of your application.

Applications received by us on a non-Business Day, will be treated as being received on the next Business Day.

* The Application Form or Additional Investment Form must be correctly completed. A written request must contain sufficient information to enable our processing.

Platinum has absolute discretion under the Funds' Constitutions to accept or refuse any application (for whatever reason and whether in whole or part). Once accepted by Platinum, applications are irrevocable subject to 'Cooling-off' – refer to page 55.

Identifying your application monies

Your application will not be processed until your monies are identified by us in the Funds' **Australian** bank account.

Please be aware that your instruction to a financial institution to transfer your money to the Funds' Australian or New Zealand bank account does not occur instantly. There are inherent limitations in banking systems, which can delay the receipt and identification of your application monies.*

Platinum does not accept responsibility for deposits it does not know about or which appear later in the Funds' bank account with an earlier deposit date and/or time. To assist in the identification of your monies, we ask that you instruct your financial institution to enter your name as a narrative on the transaction (where possible).

We generally download a statement from the **Funds' Australian bank** at 3:00pm AEST on each Business Day and if your money has not been received and identified by our bank or us, then we cannot process your application.

We generally download a statement from the **Funds' New Zealand bank** at 9:00am AEST on each Business Day. If, by this time, your money has not been received by our bank (and identified by reference to a complete investment instruction), then your money will not be transferred to the Funds' Australian bank account in time to make the cut-off time for that day.

* For example:

- EFT instructions can take 24-48 hours to be communicated between financial institutions.
- A deposit to the Funds' bank account may be batched for processing (by the bank) later in the day.
- If you direct another person (entity, fund or agent) to transfer your money to the Funds' bank account, the money may be identified as that person's money rather than yours. We may have to place a trace on monies to identify you and this can take up to ten or more Business Days.
- A direct deposit to the Funds' bank account that does not have your name as the reference may not be identified by the bank.

Rejections and dishonours

Any money received by EFT, bank deposit, or BPAY that cannot be identified by Platinum will be returned to the relevant paying financial institution. If a cheque, EFT or direct debit is dishonoured, any units issued will be cancelled. A dishonoured cheque or regular investment plan or direct debit will not be re-presented or re-processed.

Incomplete or rejected applications

Under each Fund's Constitution, Platinum can accept or reject any application for units in its sole discretion. To ensure that your initial application is processed efficiently, you need to complete all relevant sections of the Application Form and provide all required customer identity verification documents as outlined in the Application Form.

If your application is incomplete, and we are not able to proceed with your request, we may hold your application monies in an interest bearing trust account until we receive the required information. All interest earned will be retained by the Fund. Monies will be held for a maximum period of 30 days commencing on the day we receive the monies. After this period your funds will be returned. If your application is subsequently completed to our satisfaction prior to the expiration of the 30 day period and:

- by 3:00pm AEST on a Business Day, the monies held will generally be used to apply for units using the entry price calculated for that Business Day;
- after 3:00pm AEST on a Business Day, the monies held will generally be used to apply for units using the entry price calculated for the next Business Day.

Issuing units

The number of units issued to you is determined by dividing your application monies by the applicable entry price.

Unit prices for the Funds are posted on Platinum's website.

Unit pricing

All unit prices are calculated by the custodian, State Street Australia Limited ("SSAL") and verified by Platinum. The Funds are forward priced. This means that when you invest you will not know the entry price that you will receive (as it will not yet have been calculated and will be determined after your application has been accepted).

In normal market conditions, Fund valuation and unit pricing is carried out on each Business Day. The NAV and unit prices of a Fund for a Business Day are usually calculated on the next Business Day.

The Fund's NAV divided by its units on issue provides the NAV price. Adding buy costs to this price determines the entry price and deducting sell costs from the NAV price determines the exit price – refer further to buy/sell spread on page 40.

Transacting on your Investment Account

Switching

You may request to switch (all or part of) your investment between A Class units of the Funds at any time. The minimum initial investment of A\$500,000 applies if you are switching to a Fund in which you are currently not invested. A minimum balance of A\$500,000 is required to keep your investment in a Fund open. Under the Regular Investment Plan, the minimum initial investment of A\$500,000 applies if you are switching to a Fund in which you are currently not invested. A minimum balance of A\$500,000 is required to keep your investment in a Fund under the Regular Investment Plan open.

To request a switch:

- write to us – please state your investment account number and name, and the Funds (to and from), and the amount(s) you wish to switch; or
- complete a Switch Form (available from Platinum's website or Investor Services).

The written instruction or Switch Form must be signed by an authorised signatory (or signatories where more than one is required) to the account.

You may fax or email to us or otherwise upload via the Platinum secure client website, your signed written instruction or Switch Form, although if you use fax or email for this purpose we ask that you phone us to verify receipt – refer to 'Facsimile, email and internet – terms and conditions' on page 54.

A switch is processed by us as a withdrawal and an additional investment. The Funds' buy/sell spread does apply when switching between Funds.

Switching between Funds may give rise to tax consequences and it is recommended that you check the tax implications with your tax adviser before switching.

Transfers

Investors may not transfer (or agree to transfer) any units in a Fund to another person (entity) without Platinum's prior consent.

To apply, send to us a completed standard transfer form (available from Platinum's website or Investor Services).

Please ensure that you advise us of the transferee's investment account number and name (or if the transferee is not a current Investor, provide us with an Application Form completed by the transferee) – refer to 'Initial investment' on page 43.

A transfer is processed by us at the NAV price, which means no buy/sell spread is applied.

Transferring units may give rise to tax consequences and it is recommended that you check the tax implications with your tax adviser before transferring.

Fully exiting the Funds closes the account.

Withdrawals

You may request a withdrawal of (all or part of) your investment at any time. The minimum withdrawal amount is **A\$10,000** per Fund or the entire investment balance in the Fund if the withdrawal would cause your investment in the Fund to fall below A\$500,000. Under the Regular Investment Plan, the

minimum withdrawal amount is **A\$10,000** per Fund or the entire investment balance in the Fund if the withdrawal would cause your investment in the Fund to fall below A\$500,000.

To request a withdrawal:

- write to us – please state your investment account number and name, the Fund and amount(s) you wish to withdraw, and how the proceeds are to be paid to you; or
- complete a Withdrawal Form (available from Platinum's website or Investor Services).

The written request or Withdrawal Form must be signed by an authorised signatory (or signatories where more than one is required) to the account.

If you require us to pay proceeds to a new financial institution account (i.e. not one previously elected for your investment account), we require your original signed written instruction or Withdrawal Form advising us of the new financial institution account.

If proceeds are to be paid by cheque or to your previously nominated financial institution account, you may fax or email to us or otherwise upload via the Platinum secure client website, your signed written instruction or Withdrawal Form, although if you use fax or email for this purpose we ask that you phone us to verify receipt – refer to 'Facsimile, email and internet – terms and conditions' on page 54.

Your withdrawal request must be received (and accepted by us)* by **3:00pm AEST on a Business Day** to be processed with the exit price calculated for that Business Day. Withdrawal requests received (and accepted by us)* after **3:00pm AEST on a Business Day** (but by the next processing cut-off time) will generally be processed using the exit price calculated for the next Business Day. Unit prices of a Fund for a Business Day are usually calculated on the next Business Day.

For example:

- A withdrawal request accepted by us at 10:00am AEST on a Tuesday (which is a Business Day) should generally be processed with the exit price calculated on Wednesday using closing prices of global equity markets on Tuesday.
- A withdrawal request accepted by us at 4:00pm AEST on a Tuesday (which is a Business Day) i.e. after the cut-off for Tuesday, should generally be processed with the exit price calculated on Thursday using closing prices of global equity markets on Wednesday.

The transaction date which will appear on your confirmation will be the acceptance date of your withdrawal request.

Withdrawal requests received by us on non-Business Day will be treated as being received on the next Business Day

Withdrawal proceeds can be paid:

- by cheque, made payable to the Investor, in Australian dollars; or
- EFT to the Investor's nominated Australian or New Zealand[#] financial institution account.

Transacting on your Investment Account – *continued*

The proceeds of your withdrawal are normally available within 10 Business Days of Platinum accepting your withdrawal request. In certain situations, which impact on the effective and efficient operation of a market for an asset or assets of a Fund, we may choose to suspend the processing of all applications and withdrawals for a Fund.

Fully exiting the Funds closes the account.

* To be accepted your withdrawal request must contain sufficient information to enable our processing, and be appropriately signed. The Fund must also be liquid – refer to ‘Withdrawals – Significant risk factors / limitations’ on page 15. Platinum will not be responsible for any postal or service delivery delay or failure.

The conversion of your Australian investment to New Zealand dollars will be processed by the Funds’ bank, State Street Trust and Bank, at the exchange rate it determines (at the processing time) to be market rate.

Minimum amounts

Platinum reserves the right to waive any minimum investment or withdrawal amount at its sole discretion.

Distributions

The Funds may earn income (such as dividends and interest) and may also realise capital gains or losses on the sale of investments. Income and net realised capital gains will be distributed to Investors annually as at **30 June**.

The attributed tax components will vary from Fund to Fund and from year to year (you will need to refer to your AMIT member annual (“AMMA”) statement). There may also be times when no trust components are attributed. The AMMA statement will advise you of the non-assessable amounts (if any) of the distribution; that is, the amounts that have been distributed to you but have not been included in assessable income.

Distributions are calculated in dollars per unit on the number of units held as at the end of the distribution date (i.e. your distribution entitlement from a Fund is not pro-rated for the duration of your investment in a Fund during the tax year). Be aware that when such a distribution is made, the unit price will fully reflect the distribution. Investors should generally receive their entitlement (if payable) within 15 Business Days after the distribution date.

You can make the following distribution elections:

- have your distribution entitlement **reinvested** in additional units in the same Fund / Unit Class;
- have your distribution entitlement **paid** to your nominated financial institutional account;* or
- select our **fixed cash distribution option, currently set at 4%** per annum** – refer below for full details.

If no election is made, your distribution entitlement will be automatically reinvested. No buy spread will apply to reinvestment.

If your financial institution rejects payment, your monies will be processed by us as an additional investment to the applicable Fund(s).#

To change your election:

- update via the Platinum secure client website – provided that you have the relevant user access, you are able to update your distribution election on a per Fund basis; or

- write to us – stating your investment account number and name, and your distribution election; or
- complete a Change of Details Form (available from Platinum’s website or Investor Services).

Please note that a distribution election which is made in writing or via a Change of Details Form applies across all Funds in which you hold investments.

The written instruction or Change of Details Form must be signed by an authorised signatory (or signatories where more than one is required) to the account.

You may fax or email to us or otherwise upload via the Platinum secure client website, your signed written instruction or Change of Details Form, although if you use fax or email for this purpose we ask that you phone us to verify receipt – refer to ‘Facsimile, email and internet – terms and conditions’ on page 54. However, please note that if you require us to pay distribution proceeds to a new financial institution account (i.e. not one previously elected for your investment account), we require your original signed written instruction or Change of Details Form advising us of the new financial institution account.

For a change to be reflected in the next distribution, your revised distribution election must generally be received by us no later than five Business Days before 30 June.

The last day that a transaction can be received for processing (so as to be included for the 30 June distribution) is 30 June.[^] Note that the processing cut-off time on that day is 3:00pm AEST.

* For payments to a New Zealand financial institution account, your Australian distribution entitlement will be converted to New Zealand dollars prior to payment. This will be processed by the Funds’ bank, State Street Trust and Bank, at the exchange rate it determines (at the processing time) to be market rate.

**Platinum has the discretion to amend the fixed cash distribution rate at any time up until 30 days prior to the relevant distribution date. Any changes to the fixed cash distribution rate for a Fund will be updated on Platinum’s website at www.platinum.com.au/fixedcashdistribution

The entry price applied will depend on the day we process your reinvestment, which should be no later than 20 Business Days after 30 June. If the rejection is from a New Zealand financial institution, then an exchange rate (to convert your NZ\$ distribution amount back to A\$) will be applied prior to reinvestment.

[^] If 30 June falls on a non-Business Day, then it will be the last Business Day prior to 30 June.

Additional terms and conditions applicable to the fixed cash distribution option

You may rely on the annual distribution as a way to supplement your income. However, because distributions are made up of dividends, interest, and realised capital gains or losses on the sale of a Fund’s investments, the amount of a Fund’s distribution in any financial year can be unpredictable. As such, the fixed cash distribution option has been designed to provide investors with access to more certain cash flow outcomes.

Platinum has currently set the fixed cash distribution rate at 4% for each Fund, but this rate may be adjusted to such higher or lower rate as Platinum may determine. Platinum has the discretion to amend the fixed cash distribution rate for a Fund at any time up until 30 days prior to the relevant distribution date. Any changes to the fixed cash distribution rate for a Fund will be updated by Platinum on the Platinum website at www.platinum.com.au/fixedcashdistribution

If you choose the fixed cash distribution option for a Fund, how will it work?

At 30 June (“**distribution date**”), the current fixed cash distribution rate will be applied to the number of units held by you in the Fund as at the distribution date, multiplied by the ex-distribution unit price for the Fund as at 30 June of the prior financial year, to derive the fixed cash distribution amount for the distribution date. This fixed cash distribution amount is then compared to your actual distribution entitlement amount as at the distribution date in respect of the Fund:

- if your actual distribution entitlement amount is greater than your fixed cash distribution amount, the fixed cash distribution amount will be paid to your nominated financial institutional account within 15 Business Days of the distribution date and your excess distribution entitlement amount will be reinvested in additional units in the same Fund. By selecting the fixed cash distribution option for the Fund you are providing us with a standing instruction to make any such reinvestment on your behalf and any such reinvestment will be deemed to be received and accepted by us, by 3:00pm AEST on 30 June (or if 30 June is not a Business Day, by 3:00pm AEST on the last Business Day prior to 30 June) for the purposes of processing any such reinvestment, and your reinvestment will receive the ex-distribution unit price of the Fund as at 30 June of the relevant financial year. Such units will not be entitled to the relevant distribution for the period prior to 30 June of the relevant financial year. No buy spread will apply to your reinvestment;
- if your actual distribution entitlement amount is less than your fixed cash distribution amount, we will process a withdrawal of units from the Fund to cover the shortfall. The fixed cash distribution amount (comprised of your distribution entitlement amount (if any) and the proceeds of the withdrawal) will be paid to your nominated financial institutional account, within 15 Business Days after the distribution date. By selecting the fixed cash distribution option for the Fund you are providing us with a standing instruction to establish this withdrawal request facility on your behalf and any such withdrawal request will be deemed to be made by you and received and accepted by us, by 3:00pm AEST on 30 June (or if 30 June is not a Business Day, by 3:00pm AEST on the last Business Day prior to 30 June), and your withdrawal request will receive the ex-distribution unit price of the Fund as at 30 June of the relevant financial year. Such units will be entitled to the relevant distribution for the period prior to 30 June of the relevant financial year. A sell spread will apply to your withdrawal.

Platinum has the discretion to amend the fixed cash distribution rate at any time up until 30 days prior to the relevant distribution date. Any changes to the fixed cash distribution rate for a Fund will be updated on Platinum’s website at www.platinum.com.au/fixedcashdistribution

Your financial institution account

You can elect to have your withdrawal proceeds and distribution entitlements paid to an **Australian resident or New Zealand resident bank, building society or credit union account.**

The account nominated by you must be in the name of the Investor, as it is our policy not to make third party payments.

Changing your details

To amend your details (such as your address, contact details, nominated financial adviser or administrator, or nominated financial institution account):

- update via the Platinum secure client website – provided that you have the relevant user access, you are able to update your details (with the exception of new financial institution accounts); or
- write to us – stating your investment account number and name, and the details of the change; or
- complete a Change of Details Form (available from Platinum’s website or Investor Services).

The written instruction or Change of Details Form must be signed by an authorised signatory (or signatories where more than one is required) to the account.

You may fax or email to us or otherwise upload via the Platinum secure client website, your signed written instruction or Change of Details Form, although if you use fax or email for this purpose we ask that you phone us to verify receipt – refer to ‘Facsimile, email and internet – terms and conditions’ on page 54. We require your original signed written instruction or Change of Details Form if you are advising us of a new financial institution account.

One investment account number is issued covering all your investments in the Funds. Therefore, a change to your account details will apply to all Funds in which you hold units.

Who else can operate your investment account?

If you wish to appoint a person (or entity) as your authorised representative (agent or attorney):

- complete the Operating Authority Form (available from Platinum’s website or Investor Services); or
- provide us with a valid power of attorney document. We also require the attorney to validate their authority by providing a non-revocation statement (for subsequent instructions).*

Please be careful in making such an appointment. Your authorised representative (agent or attorney) will be empowered to act on your behalf in all matters relating to your investment in the Funds (including making a request to withdraw or transfer part or all of your investment and change your account details).

An Investor who appoints an authorised representative (agent or attorney) will be bound by the ‘Appointment of an authorised representative (agent or attorney) – terms and conditions’ outlined on page 55.

* ‘non-revocation statement’ – a signed letter (from the attorney) that states: “I [name] of [address] (the Attorney) am acting under a power of attorney granted to me by [name of Investor] (the Investor) and have no knowledge of revocation or suspension of that power by the Investor or the death or mental incapacity of the Investor.”

Information about your Investment

Platinum's website

General and updated information about the Funds is available from our website – www.platinum.com.au

This includes Fund unit prices, performance, distribution history and monthly updates (detailing Fund size, exposures and top holdings). Other information includes: changes to key service providers (if any); material changes in a Fund's risk profile (if any) and other monthly and annual updates as listed on page 16; the current PDS (including any supplementary material) and the Funds' annual financial reports.

The website has a comprehensive section relating to topical updates and interesting articles from the investment team.

The website also provides Platinum's estimates of each Fund's exposure to carbon emissions via their respective investment Portfolios, per \$10,000 invested. Investors may wish to use this information to consider ways in which they can offset the estimated carbon emissions generated by their investment in a Fund.

Online access to your investment account

You can access information about your investment in the Funds by logging onto the Platinum secure client website (a link is provided on Platinum's website with access restricted by client ID and password).

Information available on the website includes:

- your account balance (in each Fund in which you hold units);
- your transaction history;
- statements and Fund performance;
- distribution and tax information; and
- registered account details.

Enhanced functionality means you can:

- upload scanned forms or documents via the secure client website;
- create a 'watch list' for both your Platinum and external investments for tracking purposes; and
- provided you have the appropriate user access, you can update your details (with the exception of nominated financial institution accounts and Regular Investment Plans).

When completing your Application Form, you may elect to receive access to the secure client website. You can also register for access by completing an Online Access Registration Form which is available on Platinum's website or from Investor Services.

In each case you will need to provide an email address and mobile number for each individual that you require to be issued with a client ID and password ("User"). The request must be signed by an authorised signatory (or signatories where more than one is required) on the relevant account. Once registered, you will receive an email containing your unique 8 digit client ID, and a link to set your password. We will also send a one time security code via SMS to your mobile for verification purposes.

You acknowledge and agree that you shall be bound by any instruction, request or change of details which are submitted by a User via the secure client website as if such instruction, request or change of details was made by you and Platinum shall be entitled to rely on such instruction, request or change of details without further enquiry. Platinum's 'Facsimile, email and internet – terms and conditions' on page 54 shall apply.

Reporting

As an Investor you should receive:

- an investment confirmation, generally within 10 Business Days of an application (initial and additional, but not those made under the Regular Investment Plan) being accepted by us;
- a confirmation of a withdrawal, switch or transfer of units, generally within 10 Business Days of your request being accepted by us;
- a confirmation of any change to your personal details, generally within 10 Business Days of our receipt of your instruction;
- a holding summary (sent quarterly or annually, as elected by you) detailing all of your transactions for the reporting period;
- the quarterly investment report, which provides performance, portfolio changes, commentary and outlook for each of the Funds;
- an AMIT member annual ("AMMA") statement (and tax guide) for each financial year, generally sent by the end of July;
- upon election by you, the Funds' annual financial report (enclosing the Funds' financial statements) within 3 months of the end of the financial year;
- an annual fee statement (or otherwise when you fully exit the Funds) as prescribed by the Corporations Act; and
- a withdrawal capital gains tax statement for Australian tax resident Investors that have withdrawn units during the financial year (annually or when you fully exit the Funds).

Continuous disclosure

The Funds are disclosing entities and are subject to regular reporting and disclosure obligations. Copies of documents lodged with ASIC in relation to the Funds may be obtained from, or inspected at, an ASIC office. We can also provide you with a paper copy (free of charge) of:

- the Funds' annual financial report (including financial statements) most recently lodged with ASIC;
- any half-yearly financial report lodged with ASIC in respect of the Funds; and
- any continuous disclosure notices given for the Funds after the lodgement of the annual financial report.

Platinum follows ASIC's good practice guide for continuous disclosure and in so doing will post copies of continuous disclosure notices on its website. Investors are encouraged to check the website regularly for such information.

The Funds' annual financial reports are also available from Platinum's website.

Updated information

While the terms and features of the Funds relating to this PDS are current at the issue date of this PDS, they may change in the future. We reserve the right to change the terms and features of the Funds in accordance with the Constitutions of the Funds and the Corporations Act.

If a change is considered materially adverse, we will issue a supplementary or new PDS. Updated information which is not materially adverse is accessible from Platinum's website or Investor Services. A paper copy of the updated information will be available free of charge upon request.

Taxation Information

The following information summarises some of the taxation issues you should consider before making an investment.

The information is intended for use by Investors who hold their units in a Fund on capital account and are not considered to be carrying on a business of investing, trading or investing for the purpose of profit by sale. It should be used as a guide only and does not constitute professional tax advice as individual circumstances may differ. The taxation of a unit trust investment such as the Funds can be complex and may change over time. The comments below are current as at the date of preparation of this PDS. Please consult your tax adviser about the specific implications relevant to your situation.

Tax position of the Funds

General

The Funds are Australian resident trust estates for Australian tax purposes. Although the Funds have a wide range of authorised investments, Platinum will only engage in 'eligible investment business' described in section 102M of the Australian Income Tax Assessment Act 1936, as amended. On this basis, each Fund should not be a 'public trading trust', and so should not be taxed as a company.

The Funds have elected to be Attribution Managed Investment Trusts ("AMITs"). Under the AMIT regime, generally, no Australian income tax will be payable by the Responsible Entity on behalf of a Fund on the basis that an Investor who holds units in a Fund is attributed all of the trust components of the Fund on a fair and reasonable basis for each income year. Where a Fund no longer qualifies as an AMIT, the tax outcomes for Investors could be affected and Investors should seek their own professional advice.

In the case where a Fund makes a loss for Australian tax purposes, the Fund cannot distribute the loss to Investors. However, subject to the Fund meeting certain conditions, the Fund may be able to recoup the losses against assessable income of the Fund in subsequent income years.

Deemed Capital Gains Tax ("CGT") election

The Funds have made the irrevocable election for deemed capital account treatment to gains and losses on the disposal of eligible investments (including equities and units in other trusts, but generally not derivatives and foreign exchange contracts). On this basis, realised gains and losses of a Fund on the disposal of the Fund's eligible investments are treated as capital gains and losses. Where the eligible investments have been held by a Fund for at least 12 months (excluding dates of acquisition and disposal), the Fund should be entitled to a 50% capital gains discount in respect of any nominal gain. Net capital losses incurred by a Fund can generally be carried forward and offset against the 'grossed up' discount capital gains and/or non-discount capital gains derived in subsequent income years.

Controlled Foreign Company ("CFC") provisions

There are certain tax rules (i.e. the CFC provisions) which may result in assessable income arising to a Fund in relation to passive income and gains on certain investments that the Fund holds in overseas companies and trusts, where certain thresholds are met. This means that the assessable income of a Fund may include unrealised gains and undistributed income from overseas investments (i.e. CFC attributable income).

The Responsible Entity will endeavour to manage each Fund's Portfolio such that the CFC provisions should not apply.

Tax reform

The tax information included in this PDS is based on the taxation legislation and administrative practice at the issue date of this PDS. Reforms to the taxation of trusts are generally ongoing. The Responsible Entity will continue to monitor the progress of such developments and the impact on the Funds. However, given these developments may impact on the tax position of the Funds and Investors, it is strongly recommended that Investors seek their own professional advice in relation to the potential impact of any reforms on their tax position.

Tax position of Australian resident Investors

General

The taxable net income earned by a Fund that is attributed to an Investor on a fair and reasonable basis for an income year should be included in the Investor's tax return for that year irrespective of whether that income is distributed or not.

Distributions

Investors in the Funds will be provided with an AMIT member annual ("AMMA") statement (generally in July each year) indicating the attributed amounts and cash distribution, including any Foreign Income Tax Offsets ("FITOs") and franking credit entitlements, any upwards or downwards net cost base adjustment in the net capital gains tax cost base of their units in the Funds, and any taxes withheld.

The taxation treatment of tax components may differ. For example, in addition to investment income such as foreign income, a distribution from a Fund may include a non-assessable component (formerly referred to as a tax deferred amount), and other capital gains distribution component (formerly referred to as a CGT concession component), as well as net capital gains (of which some part may be discount capital gains).

Given the investment objectives of the Funds, it is anticipated that the majority of the Funds' income will be foreign income. If you held units in a Fund you may be entitled to a FITO for foreign tax already paid by the Fund in respect of this income. Both the foreign income and any related FITOs should be included in your tax return. To the extent you do not have sufficient overall foreign sourced income to utilise all of the FITOs relevant to a particular year of income, the excess FITOs cannot be carried forward to a subsequent income year and will lapse.

If you held units in a Fund, any capital gains attributed by the Fund should be included in the calculation of your net capital gain or loss. In performing this calculation, any discounted capital gains attributed by the Fund should be 'grossed up' (i.e. the amount of discounted capital gains should be doubled). You should then determine whether you are eligible to apply a CGT discount in respect of the attributed capital gains (refer below under 'Withdrawals and disposal of units').

In some cases, income distributed by a Fund may exceed its taxable income. This excess is referred to as "other non-assessable amounts". For CGT purposes, other non-assessable amounts received from a Fund reduce the cost base of your units in that Fund and therefore increase your capital gain or reduce your capital loss on disposal of those

units. Other non-assessable amounts are not assessable to you unless the total non-assessable amount received from a Fund exceeds the cost base of your units in the Fund, at which point the excess is treated as a capital gain that should be included in your assessable income and subject to the CGT discount where the relevant requirements are met (refer “Withdrawals and disposal of units” below).

If the trust components attributed to you in respect of a Fund for tax purposes are not actually paid to you, you may be entitled to an upward tax cost base adjustment for your units in the Fund. The relevant cost base adjustments will be advised to you in the AMMA statement.

The other capital gain component of a distribution represents the 50% CGT discount that a Fund has applied in respect of the disposal of eligible investments that it held for 12 months or more.

The other capital gain component for a Fund should not be assessable when received by individuals and trusts but may reduce the cost base of the units in the Fund held by such Investors in certain circumstances. Companies and complying superannuation entities will effectively include part or all of this amount in their assessable income due to the operation of the capital gains tax discount rules (as outlined below under ‘Withdrawals and disposal of units’).

In some instances the Responsible Entity will make the distribution before 30 June. The taxable income will still be calculated for the year to 30 June and attributed to unit holders on a fair and reasonable basis under the AMIT.

Where the tax components estimated for a Fund at year end is different to the amount that is finally calculated, the difference is generally carried forward and adjusted in the year in which the variation is discovered.

Fixed cash distribution option

As the tax components of a Fund attributed to you can vary from year to year, your distribution entitlement may also vary. The fixed cash distribution option seeks to provide you with a fixed cash distribution amount each year. While your distribution entitlement for a given year remains unchanged, the cash payment for that year is increased or decreased to reach the fixed cash distribution amount.

The tax implications to you each year will depend on both the tax components of the Fund and your personal circumstances. Under the fixed cash distribution option, you will still include the same taxable amounts in your tax return as if you received your distribution entitlement in cash. Additional tax implications arise in respect of the fixed cash distribution option.

Where your distribution entitlement:

- is more than your fixed cash distribution amount, the excess shall be automatically applied to reinvest in units at the ex-distribution unit price. These units would be acquired with an expected capital gains tax cost base equal to the amount of the excess; or
- is less than your fixed cash distribution amount, the shortfall shall be supplemented by withdrawing sufficient units at the ex-distribution unit price, such that the withdrawal proceeds equal the shortfall amount. The withdrawal of units may give rise to a capital gain or loss to you (refer below).

While the fixed cash distribution option seeks to provide a consistent cash distribution each year, the tax components attributed to you each year will still be based on your distribution entitlement. Further, depending on the difference between your distribution entitlement and fixed cash distribution amount each year, the above implications may also affect your tax outcomes.

Accordingly, the fixed cash distribution option does not seek to provide consistent tax outcomes from year to year. As the tax components may vary each year, the tax outcomes and therefore your net cash distribution after tax may also vary.

If in doubt about the tax implications of the fixed cash distribution option, you should seek professional advice.

Withdrawals and disposal of units

If you withdraw, switch or transfer units in a Fund, this may constitute a disposal for tax purposes, depending on your specific circumstances.

You should include any realised capital gain or loss on disposal of your units in a Fund (together with any capital gains that have been attributed to you by the Fund) in the calculation of your net capital gain or loss.

A net capital gain will be included in assessable income. A net capital loss may only be offset against capital gains. A discount capital gain should be grossed up before being offset against capital losses. If you do not have any capital gains, the capital loss may be carried forward for offset against capital gains of subsequent years, but may not be offset against ordinary income.

In calculating the taxable amount of a capital gain, a discount of one half for individuals and trusts or one third for complying superannuation entities may be allowed where the units in a Fund have been held for 12 months or more (excluding the date of acquisition and date of disposal). No CGT discount is available to corporate Investors.

The calculation of your capital gain or loss may also be affected by any non-assessable distributions made by a Fund (refer above).

Where units are held as part of a business of investing or for the purpose of profit making by sale, gains realised may constitute ordinary income and losses realised may constitute allowable deductions.

Tax position of non-resident Investors

Appropriate deductions of Australian withholding tax will be made from distributions (and attribution) of Australian sourced income and certain gains to non-resident Investors.

Non-resident Investors may also be subject to tax on distributions in their countries of residence (for tax purposes) and may be entitled to foreign tax credits under the tax laws of the relevant country.

It is expected that non-resident Investors should generally not be subject to Australian CGT on the disposal of units in the Funds.

Broadly, a non-resident Investor in a Fund will be subject to CGT on the disposal of units if they, together with any associates, hold or had an option or right to hold 10% or more of the units in the Fund at the time of disposal or throughout a period of 12 months during the two years prior to disposal, and the majority of the Fund’s assets comprise Taxable Australian Property (i.e. “land rich” investments).

In this regard, it is not expected that any of the Funds will hold Taxable Australian Property.

A non-resident Investor may also be subject to CGT where units in a Fund have been held as part of the carrying on of a business through a permanent establishment in Australia.

However, if the non-resident Investor holds their units as part of a business of investing or for the purpose of profit making by sale, gains may be subject to Australian tax as ordinary income, subject to any treaty relief.

We recommend that non-resident Investors consult their tax adviser regarding their tax implications, including the tax implications in the country in which they are resident for tax purposes.

New Zealand Investors

New Zealand Investors, who hold units in a Fund, will generally be deemed to hold an interest in a Foreign Investment Fund (“FIF”) unless the interest falls within the very limited FIF exemption for certain Australian unit trusts. This exemption will not apply to these Funds.

New Zealand Investors will need to calculate their FIF income each year under one of five calculation methods, being: fair dividend rate method (“FDR”); comparative value method (“CV”); attributable FIF income method; deemed rate of return method; or cost method.

The default method is the FDR method. Under this method, most New Zealand Investors will be taxable each year on 5% of the opening market value of their investment in the Funds.

Special calculation rules apply to unit trusts or other New Zealand Investors who value their units on a regular basis.

Under the FDR method, dividends or any gain on the sale or withdrawal of units in the Funds are not separately taxed in New Zealand.

No deduction is available for any losses under the FDR method. Quick sale rules will apply to units bought and sold during the income year which result in a New Zealand Investor being taxable generally on the lesser of any gain on the quick sale and 5% of the cost of the units (determined on an average cost basis).

Individual and eligible family trusts have a “safety net” option, which allows these investors to calculate FIF income under the CV method based on their actual economic return where this is less than the amount calculated under FDR. Where the choice of FDR or CV methods is available, New Zealand Investors may choose the method that produced the lower taxable income each income year, but the method must be applied consistently to all FIF interests for that income year.

A de minimis concession from the FIF rules applies to individual investors who hold offshore shares (excluding certain Australian listed shares) with an aggregate cost of up to NZ\$50,000. Individual New Zealand Investors may choose whether to apply the NZ\$50,000 de minimis threshold or apply the FIF rules. Individual New Zealand Investors who apply the de minimis exemption will be taxed on distributions from the Funds. They can also be taxable on an exit from a Fund in certain circumstances.

New Zealand Investors are generally not entitled to claim a tax credit in New Zealand for overseas withholding tax deducted with respect to a Fund’s underlying investments.

Closely held trusts

Broadly, where a Fund’s top 20 individual investors’ own 75% or more of the Fund’s issued units, it will be deemed a “closely held trust”. If this occurs, Platinum will be obligated to provide to the ATO details of each Investor who is a trustee of another trust (where that Investor is acting in its capacity as a trustee of another trust). Failure to disclose such information to the ATO will result in the untaxed part of the relevant Investor’s share of the Fund’s net income (to which they are entitled) being taxed at the highest marginal tax rate, plus Medicare levy.

One or more of the Funds may, at times, be a “closely held trust”. Prospective investors will therefore be required to indicate on the Application Form whether or not they are acting as trustee of another trust and (if so) provide details of the ultimate beneficiaries.

The Funds’ Constitutions permit Platinum to recover any tax levied, or which may be levied, by the ATO in respect of your investment.

Goods and Services Tax (“GST”)

GST should not be payable on your investment in the Funds.

GST will apply to the fees and costs charged to the Funds. However, in respect of some of these fees, the Funds will usually be entitled to reduced input tax credits. The costs and fees payable in relation to your investment in a Fund as stated in this PDS are inclusive of GST.

GST will not be applicable to the buy/sell spread payable in relation to the Funds.

Additional Information

Our role as Responsible Entity

Platinum is the Responsible Entity and investment manager of the Funds.

Platinum is responsible for the proper and efficient administration, management and valuation of the Funds, including all investment decisions. Platinum is required to comply with the provisions of the Funds' Constitutions, the Corporations Act, ASIC policy and any additional obligations created by this PDS. Subject to these obligations, Platinum has absolute discretion as to the exercise of its powers under each Fund's Constitution.

The Funds' Constitutions

Each Fund is governed by a Constitution. The Constitution, together with this PDS, the Corporations Act and ASIC policy, regulates the Fund and our legal relationship with Investors.

A Constitution may be amended by Platinum, provided the amendment is not materially adverse to the rights of Investors. Otherwise, Platinum must obtain the approval of Investors by special resolution (which requires at least 75% of the votes cast by Investors being in favour of the resolution and entitled to vote on the resolution).

You may inspect the Funds' Constitutions at our office on any Business Day, free of charge.

By investing in a Fund, you agree to be bound by the terms of this PDS and the Fund's Constitution (as amended from time to time). You should consider the terms of the Constitution before investing in a Fund.

Additional investments to a new Fund

Platinum has been granted ASIC relief so that Investors can invest in A Class units in another Fund (described in this PDS) not initially invested without the need to complete an Application Form. This arrangement is possible because all information about the Funds is contained in one PDS. A copy of the relief is available by contacting us. You are not obliged to participate in this arrangement, and may instead complete an Application Form. If you wish to invest in another class of units of a Fund, you will need to complete the application form which accompanies the product disclosure statement pursuant to which that class of units is being offered.

Facsimile, email and internet – terms and conditions

Investors who use facsimile, email or the Platinum secure client website to send instructions or update details (including application, withdrawal, switching, and change of details requests) (“Instructions”) to Platinum do so at their own risk. Electronic communication is inherently unreliable and confirmation of physical receipt by Platinum of any facsimile or email Instruction should be verbally sought by phoning Investor Services. Platinum will acknowledge receipt of any Instruction submitted via the Platinum secure client website by sending an email confirmation to the email address nominated by you. However, if you do not receive this confirmation email upon submitting an Instruction, you should call Investor Services. Please be careful – the Investor bears the risk that a fraudulent

withdrawal request can be made by a person who has access to the Investor's account details and signature.

To the maximum extent permitted by law, if an Investor wishes to send Instructions to Platinum via facsimile, email or the Platinum website, the Investor agrees to the following terms and conditions:

- Platinum shall be entitled to rely on any such Instructions;
- Platinum shall not be responsible for carrying out any verification of such Instructions other than in the case of the Platinum secure client website, verification of the secure ID and password and in the case of email or facsimile Instructions, that the Instruction bears the Investor's account name and number. Where an Instruction bears a signature or signatures, Platinum will also check that the signature or signatures appear to be those of the Investor or an authorised representative (agent or attorney);
- Platinum will not be responsible for any errors in or omissions from such Instructions and Platinum has no liability for any loss arising in relation to such errors or omissions;
- You hereby indemnify Platinum on an after tax basis (including all of its directors, officers and employees) and will hold them harmless from and against any and all losses (including legal fees and expenses) arising out of or in connection with any of them acting or relying upon any such Instructions;
- Platinum will not be liable for any loss arising from (i) any computer viruses, malicious code or any other technical defect (including loss, damage or corruption of data); (ii) errors or delays during transmission or receipt of Instructions; (iii) failure of transmission of Instructions; (iv) fraudulent or unauthorised Instructions; or (v) any circumstances beyond the control of Platinum including without limitation, unavailability or interruption of the internet or other electronic communication services;
- Platinum will not be required to act on any Instruction if Platinum reasonably considers that:
 - the Instruction is fraudulent or is not from the Investor or an authorised representative (agent or attorney);
 - the Instruction is incomplete, unclear or ambiguous;
 - acting on the Instruction may be unlawful or conflict with applicable laws;
 - the Instruction was not received or was not received in time for the required action to be taken or otherwise does not comply with Platinum's processing requirements; or
 - by acting on the Instruction, Platinum would be exposed to loss or liability for which it may not be adequately indemnified.

We will not accept a facsimile receipt (from the sender's machine) or email record (from the sender's computer or internet provider) as evidence of our receipt of the facsimile or email.

Appointment of an authorised representative (agent or attorney) – terms and conditions

You agree to the following terms and conditions when appointing an authorised representative (agent or attorney):

- To nominate an authorised representative (agent or attorney) to operate your investment account, you must provide to us an original and complete Operating Authority Form or valid power of attorney document.
- A valid power of attorney document is an original document or a certified copy of that document that looks ‘on its face’ to be a complete power of attorney given by you. A certified copy must have an original signature of an Authorised Certifier – i.e. a person permitted by Australian law to witness a statutory declaration.* The Authorised Certifier is required to: check that the copy is a true and complete copy of the original document; certify this by writing and signing a statement on front of the copy – ‘I [name] [occupation] certify this to be a true and complete copy of the original [name document]’; and sign each page of the copy.
- You warrant that your nominated authorised representative (agent or attorney) is older than 18 years of age and is not a financial adviser.
- You acknowledge and agree that you are bound by all acts of your authorised representative (agent or attorney), including: signing or otherwise authorising an application to invest; preparing, signing and lodging or otherwise communicating a request to withdraw an investment; directing payment of any amount representing distributions, withdrawal proceeds or otherwise, to you or to any other person; obtaining information about your investment; directing Platinum to send all notices, cheques, reports and other material to the authorised representative on your behalf; or changing your investment account details.
- The exercise of any of the powers by a person reasonably believed by Platinum to be your authorised representative (agent or attorney) or authorised to act on behalf of the authorised representative (in the case of an entity appointed as your authorised representative), will be treated as if you had personally exercised those powers.
- Your authorised representative (agent or attorney) does not have the power to appoint another or different authorised representative (agent or attorney) to act on your behalf.
- You indemnify us from and against all losses, liabilities, actions, proceedings, claims and demands arising from instructions (we receive) from your authorised representative (agent or attorney) whether or not your authorised representative (agent or attorney) was acting as authorised by you.
- We reserve the right not to accept an instruction from your authorised representative (agent or attorney).
- You will provide us with an original signed instruction to cancel your appointment of an authorised representative (agent or attorney).
- An additional appointment by you will void any previously appointed authorised representative (agent or attorney).

* Please refer to page 41 of the Application Form for a list of persons who are authorised to certify documents.

Applications by Minors

As a person under the age of 18 (a “Minor”) does not have legal capacity to contract, we cannot accept an application to invest in a Fund which is in the name of a Minor. However, an adult may apply to invest in a Fund as trustee for a Minor. Once the Minor turns 18, the Units may then be transferred into an account in the name of the Minor.

If you wish to invest on behalf of a Minor it is recommended that you check the tax implications with your tax adviser.

Cooling-off

Investments of less than \$500,000 in a Fund (and that are not otherwise made by a ‘wholesale client’ as defined by the Corporations Act) give rise to a cooling-off right.

This right provides the Investor with a 14 day cooling-off period to decide if the investment in the Fund is right. The 14 day period commences on the earlier of the date of receiving the transaction confirmation or the end of the fifth Business Day after the units in a Fund are issued to an Investor.

A cooling-off right will not arise in certain circumstances, including where units are issued pursuant to a switch, an additional investment, a Regular Investment Plan, or as part of a distribution arrangement. It is also not available to ‘Indirect investors’ – refer to page 58.

If cooling-off is exercised, the amount repaid will be based on the applicable exit price (meaning the increase or decrease in the value of your investment will be taken into account).

The repayment of your investment may create a taxable gain or loss. We recommend that you seek professional advice from your financial and/or tax adviser.

Survivorship and joint ownership

Upon notice of an Investor’s death (where the investment is held by one individual), units will be dealt with as part of the Investor’s estate. Generally, we will only pay to the executor, who will distribute to beneficiaries accordingly.

Where an account is held in the name of two or more individuals, the investment will be recorded as joint ownership. If one of the joint owners dies, units will be automatically held in the name of the survivor(s) upon notice of death.

Investor liability

We have included provisions in each Fund’s Constitution designed to protect Investors. The Constitution of each Fund provides that Investors will not, by reason of being an Investor alone, be personally liable with respect to any obligation or liability incurred by the Responsible Entity. However an absolute assurance about these things cannot be given – the issue has not been finally determined by Australian courts.

Limitation of liability and indemnity

Subject to the Corporations Act, the Funds’ Constitutions provide that Platinum is not liable for any loss or damage to any person (including an Investor) by reason of not receiving sufficient or adequate instructions or information from an Investor or other person. Platinum will also, subject to the

Additional Information – *continued*

Corporations Act, not incur any liability, be liable to account to anyone or be liable for loss or damage in relation to the performance of its duties in relation to determinations of fact or law or decisions in respect of tax.

Platinum is entitled to be indemnified from a Fund for all expenses which it may incur or become liable for in connection with the proper performance of its duties as Responsible Entity of the Fund including, its administration or management and the maintenance or management of the authorised investments of the Fund.

Platinum has a right to be indemnified out of the assets of a Fund in respect of its acts or omissions. Platinum may not rely on this indemnity to the extent it has acted fraudulently, with wilful or gross misconduct or dishonesty, or where Platinum fails to show the degree of care and diligence required of Platinum, having regard to the powers, authorities and discretions conferred on it by the Fund's Constitution.

Platinum is also entitled to be indemnified in respect of tax paid or payable on behalf of an Investor. If the amount payable to an Investor is not adequate to meet the tax liability, Platinum may withdraw units held by the Investor.

Complaints

Platinum has standard arrangements in place for the handling of complaints. If you have a complaint about your investment in a Fund, contact Investor Services. We will acknowledge a complaint promptly and will make every effort to resolve your issue within 30 days.

If your complaint remains unresolved after 30 calendar days, you may lodge a complaint with the Australian Financial Complaints Authority:

Privacy law

Platinum and its related bodies corporate collect your personal information for the following purposes:

- to assess your application;
- to process and administer your investment and account;
- to communicate with you on an ongoing basis about your investment, the Funds and the market and, in some circumstances, to verify your identity as part of that communication;
- for analysis to improve our products and services which may include providing your personal details to other external service providers (including data analytics companies and companies conducting market research);
- to advise you of new developments relevant to your investment in the Funds;

- subject to your right to opt out, to send you education and marketing information about Platinum and the Funds and to provide or market other products and services to you; and
- to comply with applicable laws and regulations, including without limitation the Corporations Act and AML/CTF laws.

If you do not provide your personal information to Platinum, we may not be able to process your application or conduct some or all of the above activities.

In most cases, we collect your personal information directly from you, including via the Application Form you submit to us or in the course of other communications with you, which may occur through our website or when you phone or contact our staff. In some cases, we may also collect personal information from a third party such as a financial planner, including where information is missing from an Application Form you send us.

In order to perform our role and for the purposes described above, we may disclose some or all of your personal information to our related bodies corporate and to other persons/entities outside of Platinum, including:

- to agents and external providers of outsourced services, such as identification authority, information technology, registry, consulting, mailing and printing services;
- to the Funds' service providers, for example to the administrator, custodian and auditor for the Funds;
- directly or indirectly (via a third party) to your financial adviser, advisory firm (or dealer group) or administrative firm or other person (as nominated and expressly authorised by you in the Application Form or in writing to us until such authorisation is expressly revoked by you in writing). Platinum only provides information when adequately authorised by you;
- to government or regulatory agencies/bodies (such as ASIC, ATO, AUSTRAC or a law enforcement agency) when required by Australian law;
- as required or authorised by law, regulation or by a court order; and
- to Platinum's professional advisers.

You also consent to receiving commercial electronic messages from Platinum and its related bodies corporate regarding the Funds and other similar financial products and/or services offered by Platinum and/or its related bodies corporate.

The Corporations Act requires us to keep your name and address on a register, which may be inspected by any person on request.

In order to use and disclose your personal information for the purposes stated above, we may be required to transfer your personal information to entities located outside of Australia where your personal information may not receive the level of protection afforded under Australian law. By completing the Application Form, you consent to your personal information being transferred overseas for these purposes.

Our privacy policy, which is available at www.platinum.com.au/privacy/ explains how you may access and correct personal information that we hold about you. It also sets out how you may contact us to complain about a breach of the *Privacy Act 1988* (Cth) and how we will deal with such a complaint.

If you have any questions or concerns about privacy or if you would like further information about our privacy practices, please contact our Privacy Officer using the following details:

AML/CTF legislative requirements

As required by Australian Anti-Money Laundering and Counter-Terrorism Financing (“AML/CTF”) laws, Platinum has implemented AML/CTF compliance and monitoring programs. Accordingly, we must (at various times, including before Platinum can issue units in a Fund to an investor) collect certain customer information and verify that information. Verification of that information may require us to also collect identification documentation from investors and beneficial owners of certain investors. Customer identification information may include the following:

- if the investor is a natural person, name, address and date of birth;
- if the investor is a business entity, details of directors and beneficial owners;
- if the investor is a trustee, details of the trust, beneficial owners, beneficiaries and settlor; and
- additional information concerning business activities, structure and sources of funds.

Platinum may also require current Investors to provide updated or additional information from time to time. At times we may be obliged to disclose such information and documentation to Australian regulatory and/or law enforcement agencies.

The Application Form has been designed to comply with our legal requirements.

Australian law may require Platinum to seek further information from an investor before accepting or processing an application or withdrawal.

Platinum will refuse to accept an application from, or issue units in a Fund to, an investor until Platinum has satisfactorily concluded a customer identification procedure in relation to the investor. Platinum may also delay or refuse any application, request or transaction, if Platinum is concerned that the application, request or transaction may cause it to contravene the *Anti-Money Laundering and Counter-Terrorism Financing Act 2006* (Cth). Platinum will incur no liability to an Investor (including an applicant) if it does so.

Foreign Account Tax Compliance Act (“FATCA”) and OECD Common Reporting Standard (“CRS”)

FATCA was enacted by the United States (U.S.) Congress to improve compliance with U.S. tax laws by imposing due diligence and reporting obligations on foreign financial institutions, notably the obligation to report U.S. citizen or U.S. tax-resident account holders to the U.S. Internal Revenue Service.

Similar to FATCA, the CRS for the automatic exchange of information, is a single global standard for the collection and reporting to tax authorities of information by financial institutions on non-Australian residents.

Accordingly, Platinum may request certain information (including personal information) about yourself (for individual investors) or your controlling persons (where you are an entity) in order for Platinum to comply with its FATCA or CRS obligations. Platinum may provide such information to the Australian Tax Office who may then exchange this information with the tax authorities of another jurisdiction or jurisdictions, pursuant to intergovernmental agreements to exchange financial account information.

In the event that a Fund suffers any amount of withholding tax (including FATCA withholding tax) and/or penalties, neither the Fund nor the Responsible Entity acting on behalf of the Fund, will be required to compensate you for any such tax, except in exceptional circumstances.

The Funds’ bank accounts

Any interest (after deduction of taxes and bank charges) accruing in the Funds’ application or distribution accounts is an asset of the relevant Fund (apportioned to the dollar value of applications or distributions). An Investor has no right to any interest arising in the accounts.

Mortgagee interests/margin lending

Platinum will not recognise any security interest (notice of mortgage, etc) over any unit holdings in the Funds.

If you invest in a Fund through a margin lender, you are directing the margin lender to arrange for your monies to be invested in a Fund on your behalf. Accordingly, you do not acquire the rights of an Investor in a Fund. The margin lender is the Investor and acquires these rights and can exercise, or decline to exercise them, on your behalf according to your contract with the margin lender. As an investor in a margin lending product, you must read this PDS in that context.

When you invest through a margin lender and wish to make additional investments, realise your investment, or transfer your investment to another person, you will have to direct the margin lender to do so on your behalf. All correspondence and dealings in your investment will be through your margin lender. Web access is also obtained via your margin lender.

Platinum accepts no responsibility for any aspect of the margin lender or (without limitation) for any failure on the part of the margin lender in respect of its administration, payment of income or other distributions, payment of withdrawal proceeds, fees charged or the efficiency or viability of the margin lending product.

Indirect investors

When you access the Funds through an IDPS or IDPS-like scheme (commonly, a master trust or wrap account) you are directing the operator of the IDPS or IDPS-like scheme to arrange for your monies to be invested in a Fund on your behalf. Accordingly, you do not acquire the rights of an Investor in the Fund. The operator (or its custodian/nominee) is the Investor and acquires these rights and can exercise, or decline to exercise them, on your behalf according to the arrangements governing the IDPS or IDPS-like scheme. As an investor in the IDPS or IDPS-like scheme, you must read this PDS in that context.

When you invest through an IDPS or IDPS-like scheme and wish to make additional investments, realise your investment, or transfer your investment to another person, you will have to direct the operator of the IDPS or IDPS-like scheme to do so on your behalf.

Platinum accepts no responsibility for any aspect of the IDPS or IDPS-like scheme or (without limitation) for any failure on the part of the IDPS or IDPS-like scheme in respect of its administration, payment of income or other distributions, payment of withdrawal proceeds, fees charged or the efficiency or viability of the IDPS or IDPS-like scheme.

Specifically, Platinum's agreement to permit the naming of a Fund in the product disclosure statement issued in respect of the IDPS or IDPS-like scheme, or list of investments that may be accessed via the IDPS or IDPS-like scheme, does not signify an endorsement by Platinum, or our support for, the IDPS or IDPS-like scheme.

Consent to be named

MSCI Limited has given and has not before the date of this PDS, withdrawn its consent to be named in this PDS in the form and context in which it is named. MSCI Limited has not caused or authorised the issue of this PDS and makes no representation or warranty, explicit or implied as the fairness, accuracy or completeness of the information contained in this PDS*.

Direct Debit Service Agreement

This is your Direct Debit Service Agreement with Platinum. The agreement is designed to explain what your obligations are when undertaking a direct debit arrangement with us. It also details what our obligations are to you as your direct debit provider.

This agreement must be read prior to completing the direct debit authority in the Application Form, Additional Investment Form or Regular Investment Plan Form.

Definitions

- **account** means the account held at your financial institution from which we are authorised to arrange for funds to be debited.
- **agreement** means this Direct Debit Service Agreement between you and us.
- **business day** means every day banks are open for business in Sydney, Australia except Saturday, Sunday or a public holiday.
- **debit day** means the day that payment by you to us is due.
- **debit payment** means a particular transaction where a debit is made.
- **direct debit request** means the direct debit request between us and you.
- **us or we** means Platinum Investment Management Limited, ABN 25 063 565 006, (the Debit User) you have authorised by signing a direct debit request.
- **you** means the customer who signed the Direct Debit Request.
- **your financial institution** means the financial institution where you hold the account from which you have authorised us to arrange a debit.

1. Debiting your account

By signing a direct debit request, you have authorised us to arrange for funds to be debited from your account. You should refer to the direct debit request and this agreement for the terms of the arrangement between us and you.

We will only arrange for funds to be debited from your account as authorised in the direct debit request. If the debit day falls on a day that is not a business day, we may direct your financial institution to debit your account on the following business day. If you are unsure about which day your account has or will be debited you should ask your financial institution.

2. Changes by us

We may vary any details of this agreement or a direct debit request at any time by giving you at least fourteen (14) days' written notice.

3. Changes by you

You may change, stop or defer a debit payment, or terminate this agreement by sending us a signed instruction. We require at least two (2) full business days notification to process your request. You may fax or email to us or otherwise upload via the Platinum secure client website, your signed written instruction, although if you use fax or email for this purpose we ask that you phone to verify receipt – refer to 'Facsimile, email and internet – terms and conditions' on page 54. You may also stop an individual debit by contacting your own financial institution.

4. Your obligations

You must ensure that there are sufficient cleared funds available in your account to allow a debit payment to be made in accordance with the direct debit request. If there are insufficient cleared funds in your account to meet a debit payment:

- you may be charged a fee and/or interest by your financial institution;
- you may also incur fees or charges imposed or incurred by us; and
- you must arrange for the debit payment to be made by another method or arrange for sufficient cleared funds to be in your account by an agreed time so that we can process the debit payment.

You should check your account statement to verify that the amounts debited from your account are correct.

5. Dispute

If you have any questions or concerns about the direct debit terms, such as where you consider that a debit has been initiated incorrectly, please contact Investor Services on 1300 726 700 (Australia only) or 0800 700 726 (New Zealand only). You may also contact your financial institution. If we conclude as a result of our investigations that your account has been incorrectly debited we will respond to your query by arranging for your financial institution to adjust your account accordingly. We will also notify you of the amount by which your account has been adjusted. If we conclude as a result of our investigations that your account has not been incorrectly debited, we will respond to your query by providing you with reasons and any evidence for this finding.

6. Accounts

You should check:

- with your financial institution whether direct debiting is available from your account as direct debiting is not available on all accounts offered by financial institutions;
- your account details which you have provided to us are correct by checking them against a recent account statement; and
- with your financial institution before completing the direct debit request if you have any queries about how to complete the direct debit request.

7. Confidentiality

We will keep any information (including your account details) in your direct debit request confidential. We will make reasonable efforts to keep any such information that we have about you secure and to ensure that any of our employees or agents who have access to information about you do not make any unauthorised use, modification, reproduction or disclosure of that information.

We will only disclose information that we have about you:

- to the extent specifically required by law; or
- for the purposes of this agreement (including disclosing information in connection with any query or claim).

8. Indemnity

You indemnify Platinum against all losses, costs, damages and liability that we suffer as a result of you breaching this agreement or you providing us with an invalid, ineffective or non binding direct debit request addressed to us or if for any other reason the instructions contained in a direct debit request by you are not or cannot be performed. This indemnity includes, without limitation, legal costs and expenses on a full indemnity basis.

This indemnity is a continuing obligation, separate and independent from your other obligations and survives termination of this agreement. It is not necessary for us to incur expense or make payment before enforcing a right of indemnity conferred by this agreement. This indemnity does not apply as a result of our fraud, negligence or breach of trust.

Warning Statement for New Zealand Investors

1. This offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act 2001 (Aust) and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.
2. This offer and the content of the offer document are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act 2001 (Aust) and the regulations made under that Act set out how the offer must be made.
3. There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.
4. The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.
5. Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.
6. The taxation treatment of Australian financial products is not the same as for New Zealand financial products.
7. If you are uncertain about whether this investment is appropriate for you, you should seek the advice of a financial advice provider.
8. The offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.
9. If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.
10. The dispute resolution process described in this offer document is available only in Australia and is not available in New Zealand.

7.B Corporate Agent Identification Documents

The corporate agent is to provide identification documentation for the Company as set out on page 12 (this is inclusive of any beneficial owners of the company).

Section 8 – Politically Exposed Persons

A 'politically exposed person' (PEP) is an individual who holds a prominent public position or function in a government body or an international organisation, both within and outside Australia. This definition also extends to their immediate family members and close associates.

If anyone named anywhere in this Application Form is a PEP or an immediate family member or close associate of a PEP, please provide their name.

Section 9 – Foreign Account Tax Compliance Act (FATCA) and Common Reporting Standard (CRS) Self Certification

ALL APPLICANTS MUST COMPLETE THIS SECTION – Individuals (Section 9.1 only), Australian regulated superannuation funds (Section 9.2 only), and all other entities (Section 9.3 and 9.4 (if applicable)).

Australian taxation laws require Platinum to collect and report certain information to the Australian Taxation Office (ATO) about financial accounts held by foreign tax residents. Accordingly, Platinum is required to carry out due diligence procedures to comply with its FATCA and CRS obligations. In order to carry out our due diligence procedures, we will rely on information provided by you in this section and other sections of this Application Form.

You can find terminology guidance of certain terms on page 24 of the Application Form. For more information, visit ato.gov.au

Please ensure that you advise us promptly of any changes to the information provided below.

FATCA AND CRS KEY DEFINITIONS

These selected definitions are provided to assist you with the completion of the FATCA and CRS Self Certification forms. They are a summary only. More information can be found at <https://www.ato.gov.au/General/International-tax-agreements/In-detail/International-arrangements/Automatic-exchange-of-information---CRS-and-FATCA/>

Active NFE is an NFE that meets any of these criteria:

- a) active by reason of income and assets (less than 50% of the NFE's gross income for the preceding year or other appropriate reporting period is passive income and less than 50% of the assets held by the NFE during the preceding year or other appropriate reporting period are assets that produce or are held for the production of passive income;
- b) publicly listed NFE or related entity;
- c) Governmental Entity, International Organisation, Central Bank, or their wholly owned entity;
- d) holding NFE that is a member of a non-financial group (generally where substantially all of the activities of the NFE consist of holding the shares of, or providing financing and services to, one or more subsidiaries that engage in trades or businesses);
- e) NFE that is not yet operating a business and has no prior operating history, (a start-up NFE) but is investing capital into assets with the intent to operate a business;
- f) NFE that is liquidating or emerging from bankruptcy;
- g) treasury centre that is a member of a nonfinancial group; or
- h) not-for-profit NFE operating exclusively for religious, charitable, scientific, artistic, cultural, athletic, or educational purposes; or a professional organisation, business league, chamber of commerce, labour organisation, or other organisation operated exclusively for the promotion of social welfare.

Entity means a legal person or a legal arrangement, such as a corporation, partnership, trust, or foundation.

Financial Institution means a Custodial Institution, a Depository Institution, an Investment Entity, or a Specified Insurance Company.

Non-Financial Entity (NFE) means an Entity that is not a Financial Institution. An NFE can be either a Passive NFE or an Active NFE.

Passive NFE means any NFE that is not an Active NFE or an Investment Entity that is not a Participating Jurisdiction Financial Institution.

TIN (including functional equivalent) means Taxpayer Identification Number or a functional equivalent in the absence of a TIN. A TIN is a unique combination of letters or numbers assigned by a jurisdiction to an individual or an Entity and used to identify the individual or Entity for the purposes of administering the tax laws of such jurisdiction. Further details of acceptable TINs can be found at the following link: <http://www.oecd.org/tax/transparency/automaticexchangeofinformation.htm>

REASONS FOR NOT PROVIDING A TIN

If no TIN is available one of the following reasons (A, B or C) must be provided:

- A – The country/jurisdiction where the Account Holder is resident does not issue TINs to its residents.
- B – The Account Holder is otherwise unable to obtain a TIN or equivalent number. (This option requires further explanation as to why a TIN could not be obtained).
- C – No TIN is required. (Note: This option should only be selected if the domestic law of the relevant jurisdiction does not require the collection of the TIN issued by such jurisdiction).

9.4 Controlling Persons

Please complete section 9.4 only if 'Passive NFE' or 'An Investment Entity located in a Non-Participating Jurisdiction and managed by another Financial Institution' is selected in Section 9.3.

Controlling Persons are the natural person(s) who exercise control over an Entity. The definition of Controlling Person for the CRS corresponds to the 'beneficial owner(s)' description for AML/CTF obligations in sections 4.5, 5.4 and 6.5 (for corporations, partnerships and associations, respectively) of this application. With respect to an Entity that is a trust, Controlling Persons means the settlor(s), the trustee(s), the protector(s) (if any), the beneficiary(ies) or class(es) of beneficiary(ies) AND any other natural person(s) exercising control over the trust.

Where the beneficiaries under a discretionary trust are identified as a class of beneficiaries, only those beneficiaries that have received or become entitled to receive a distribution in the year up to the date of the signing of the Application Form, or any beneficiary who otherwise has actual control of the trust, need to be identified as Controlling Persons. Please ensure that you advise us promptly if circumstances change and the trust has made or will make a distribution to a non-Australian resident beneficiary.

Are any of the Entity's Controlling Persons tax residents of countries other than Australia?

Yes No

If Yes, please provide the details of these individuals.

10.8 Declaration and Signatures

By signing this Application Form:

I/we declare that:

- I/we have read and understood the current PDS to which this Application Form relates and agree to be bound by the terms and conditions of the PDS and the provisions of the Constitution of the relevant Fund(s) in which I am/we are investing (as amended from time to time).
- All information provided in and accompanying this Application Form is true and correct. I am/we are aware that failure to provide all necessary information may delay the processing of this Application Form.
- I/we have the legal capacity, authority and power to make an investment in the Fund(s).
- I am/we are not aware of and have no reason to suspect that the application monies accompanying this Application Form have been derived from, or are related to, money laundering or the financing of terrorism (as those terms are defined in AML/CTF laws).
- If signing this Application Form as the authorised representative of an Applicant, I am/we are the lawfully appointed authorised representative of the Applicant detailed in this Application Form; an original 'Operating Authority Form' or 'valid power of attorney document' (as defined in page 55 of the PDS) is being provided with this Application Form; and I/we have not received a notice of limitation or revocation from the Applicant of that power/authority.

I/we acknowledge and agree that:

- Future transactions in the Fund(s) will be made on the terms of the then current PDS and that the declarations, warranties and acknowledgements made in this Application Form will also apply to all such future transactions.
- Neither Platinum, its related bodies corporate or associates nor any other person guarantees the repayment of capital or the performance of the Fund(s) or any particular rate of return from any of the Fund(s).
- I/we have read the 'Privacy law' section on page 56 of the PDS and consent to the collection, use and disclosure of my/our personal information as described in the PDS and Platinum's Privacy Policy.
- Where I/we have provided information regarding any other person (including a Controlling Person) to which this Application Form relates, I/we will, within 30 days of signing this Application Form, notify those persons of this fact and that their details may be reported to the tax authorities of the country in which they are resident for tax purposes.
- Platinum may require additional information from me/us in order to comply with AML/CTF laws and where an application or withdrawal request is delayed, blocked, frozen or refused, as a result of Platinum complying with AML/CTF laws, Platinum will not be liable for any loss (including consequential loss).
- I/we will advise Platinum promptly and provide an updated CRS self-certification form and declaration within 30 days, of any change in circumstance which results in the information contained in Section 9 being incorrect, incomplete or which affects the tax residency of any individual or Entity (as applicable).
- I/we have read and understood the terms and conditions for the use of facsimile, email and internet on page 54 of the PDS, and agree to be bound by them.
- If more than one Applicant is nominated in the Application Form, I/we agree to hold the interests as joint investors and acknowledge that all Applicants are required to sign the Application Form but that joint Applicants who allow either Applicant to operate the account will bind the other Applicants for future transactions, including additional investments and withdrawals.
- If I/we have selected the fixed cash distribution option in respect of any Fund, I/we have read and understood the fixed cash distribution terms and conditions as set forth on page 48 of the PDS, and agree to be bound by them.

If I/we have completed the Direct Debit Request authorisation, I/we:

- Authorise Platinum (Debit User ID 377037) to arrange for funds to be debited from my/our account at the financial institution identified in Section 10.5 (or as referenced to Section 10.4) and as prescribed through the Bulk Electronic Clearing System (BECS).
- Acknowledge the terms and conditions of the 'Direct Debit Service Agreement' provided on page 59 of the PDS (to which this Application Form was attached) and agree to be bound by them.
- Request that this arrangement will remain in force in accordance with the details set out in Sections 10.1 and 10.5 (as referenced to Section 10.4) and in compliance with the 'Direct Debit Service Agreement'.

NB Application checklist

If you provide incomplete information on the Application Form, we may not be able to process your application.

If you do not provide the Identification Information and Documentation (as stipulated on the Application Form), we may not be able to process your Application for Investment.

If you provide Identification Documents that are not **CERTIFIED COPIES**, we may not be able to process your application.

Use this checklist to ensure you have provided a complete application – tick every box:

- All of the required Sections 1-7** (according to Investor type – **Section 1.2**) are completed.
- All of Sections 8, 9 and 10** is completed.
- TFN, ABN or exemption details** for the Applicant [entity or individual(s)] are provided – unless not an Australian-resident.
- Having read all the **declarations** on page 38, the Application Form is **correctly signed** (per page 39).
- The required **Investor Identification Document(s)** (per investor type) in a **CERTIFIED COPY FORMAT** is / are provided – if 'new' investor to Platinum (i.e. you do not have an existing account number).

Send to Platinum:

- only those Sections 1 to 7 you have completed (i.e. pages according to your investor type), and
- all of Sections 8, 9 and 10 of the Application Form (i.e. pages 23 to 39), and
- the **CERTIFIED COPY** of each of your Identification Documents (as required).

NB Transferring your Application Monies to Platinum

Cheque	A\$ EFT or deposit to the Funds' Australian bank account	NZ\$ EFT or bank deposit to the Funds' New Zealand bank account*
Drawn in \$A only Make cheque payable to 'Platinum Trust'	Account name: Platinum Trust Bank: National Australia Bank SWIFT: NATAAU3302S BSB: 082 057 Account number: 47598 3952	Account name: Platinum Trust Bank: Bank of New Zealand Account number: 02 0500 0741112 001

Ask your financial institution to record the **Applicant's name as a narrative / reference** on the EFT (if direct deposit, ask the Funds' bank to add the same against the deposit). Failure to do this may delay the identification of your monies and processing of your application – refer further to page 45 of the PDS.

Notify Investor Services of the details of your EFT or direct deposit as soon as possible so that we can proceed to identify your money (and if deposited to the New Zealand bank account, so that we can instruct to transfer your money to the Funds' Australian bank account).

* EFT and direct deposits to the Funds' New Zealand bank account require transfer to the Funds' Australian bank account before processing of your application can occur – refer to page 45 of the PDS. We will only instruct to transfer your monies once your application meets our processing requirements. We generally download a statement from the Funds' New Zealand bank at 9.00am AEST each Business Day and if, by this time, your money has not been received by our bank (and identified by reference to a complete investment instruction), then your money will not be transferred to the Funds' Australian bank account in time to make the cut-off time for that day. The Bank of New Zealand will transfer your monies using an exchange rate it determines (at the time of processing) to be market rate.

NB Identification Documentation

AML/CTF legislation obliges us to collect identification documents from prospective investors. If you do not supply the required identification documents, Platinum may be unable to process your application.

The required document(s) to be supplied depends on the type of investor:

- Individuals should refer to page 4 of this Application Form
- Trusts / Superannuation Funds (individual trustee(s)) should refer to pages 4 and 8 of this Application Form
- Trusts / Superannuation Funds (corporate trustee(s)) should refer to pages 8 and 12 of this Application Form
- Companies should refer to page 12 of this Application Form
- Partnerships should refer to page 16 of this Application Form
- Associations and Co-operatives should refer to page 20 of this Application Form
- Agents should refer to page 22 of this Application Form

Additional information about Australia's AML/CTF legislation and requirements on Financial Service Providers is provided on page 57 of the PDS. You can also refer to AUSTRAC.

CERTIFIED COPY FORMAT

All documents must be provided in a certified copy format. This means a copy of the original document that has been certified by an eligible certifier.

When having documents certified, you should show both the original document and copy to the eligible certifier.

Each certified copy must include the statement "I certify this is a true copy of the original document" (or similar wording) and must be signed by an eligible certifier. The certifier must state his/her qualification or occupation which makes them eligible.

Please note that we will generally accept an electronic copy of a certified document. However, in certain circumstances we may require sight of the original penned signature of the certifier on the certified copy. Investor Services will notify you if this is required.

Who can certify copies of documents?

A person in the following profession/role is an eligible certifier:

Translation

Identification Documents that are not written in English require a translation by an accredited translator.

In Australia, translations should be done by translators accredited by the National Accreditation Authority of Translators and Interpreters ("**NAATI**"). You can find an accredited translator by looking up or contacting NAATI.

In New Zealand, contact NTIS New Zealand or MLT Translation Centre.

Outside of Australia and New Zealand, contact your local government office.

Control

For the purposes of the beneficial owner sections in this Application Form, 'control' includes control as a result of, or by means of, trusts, agreements, arrangements, understandings and practices, whether or not having legal or equitable force and whether or not based on legal or equitable rights, and includes exercising control through the capacity to determine decisions about financial and operating policies.

Settlor

The settlor of a trust is the person (natural or legal entity) who sets up the trust and signs the trust deed to 'create' the trust. The settlor gives the trustee a 'settlement' sum of money or property to be held on trust for the beneficiaries of the trust and should have no further involvement in the affairs of the trust.
